CHILDS' FALL CATALOGUE OF BULBS AND PLANTS THAT BLOOM.

"GRAND DUCHESS" OXALIS.

JOHN LEWIS CHILDS
FLORAL PARK, N.Y.
OUR TEN CENT HORTICULTURAL BOOKS.

We publish several valuable books on Horticulture, which we supply at ten cents each. They are so cheap that all our customers can afford to have them, and so valuable that all should have them.

ALBUM OF FLORAL PARK VIEWS.

We publish a beautiful album of half-tone photographic picture of Floral Park, showing the beautiful lawns, flower beds, summer-houses, fountains, buildings of various kinds, greenhouses, seed stores, residences, Mayflower printing office, etc. It also contains a fine portrait of the Johnson. This album of Floral Park views is gotten up to accommodate some of our friends and customers who have asked for something of the sort and is offered at cost price. The album also contains several press notes on the beauty of Floral Park. Price, 10 cents.

BEAUTIFUL HOME SURROUNDINGS.

A NEW BOOK BY LORA S. LANANCE.

This charming book contains 90 pages, and is the most comprehensive and valuable work on planting, laying out and keeping a proper lawn and garden, and everything pertaining thereto. It is worth almost its weight in gold. It should be in the hands of all who love gardening. Price, 50 cents.

CHRYSANTHEMUMS.

A charming little illustrated book on the Chrysanthemum, giving all needed information in regard to its culture in the house garden or conservatory. It tells all about propagating, insect enemies, growing from seed, etc. Eleven chapters. Price, 10 cents.

OUR GREAT CHROMO PICTURES

Gladiolus Childi.

A most beautiful picture in eighteen colors 16x33 inches, showing in natural size and color several spikes of this grand new race of Gladiolus (Childi). It is a magnificent picture, and is acknowledged to be the finest thing ever produced in floral art. It has been ordered from all parts of the world, and about 20,000 copies have already been sold. It is well worth a dollar. Everybody who sees it wants it, and many people are making money by selling them at 50 cents and $1.00 each. Mailed on receipt of 15 cents.

Iris Kämpferi.

A companion picture to Gladiolus Childi, 16x33, in eighteen colors, showing thirteen varieties of the finest double Iris Kämpferi in natural color. It is necessary to attempt to describe the beauty of this foliage of all floral paintings. The great blooming blossoms in their loveliest tints stand out in all their silken lustre and charm the eye with their matchless beauty. Sent by mail, postpaid, in strong roller, on receipt of 15 cents.

SPECIAL OFFER—For only 30 cents we will send by mail, in strong cardboard roller, these two elegant pictures. This may be the last opportunity for getting them, as no more will be made after the present edition is exhausted.

Complete Volumes of The Mayflower.

We can supply back numbers of any month for several years past at five cents each. The entire volumes for 1895-1899, 1907, 1908, 1909, 1910, at 35 cents per volume of 12 numbers complete.
ANNIVERSARY GREETINGS—FALL.

We have made our 25th Fall Catalogue of Hardy Bulbs and Plants, for fall planting, winter and early spring blooming, larger and more attractive than usual, because we think our customers worthy of our best efforts, on this occasion. Many of them have stood by us long and faithfully, some for 24 or 25 years, thousands for 20 years, hundreds of thousands for 10 years and as many more for shorter periods. We do not for a moment forget our debt of gratitude to them, and we do not stop with sending them a nice, attractive and instructive Catalogue, but guard their interests when securing and growing our supply of Bulbs and Plants which will eventually adorn their homes. In Dutch Bulbs we always get the cream of Holland's crops. This is more than true this year, for extra efforts have secured us the finest supply in quality that we have ever had, or that ever came to the United States. In Plants we have carefully grown a fine stock of the most beautiful and recently introduced gems for winter blooming. To have your windows filled with fragrant blossoms during winter, it is absolutely necessary to start with Good Bulbs and Good Plants. To have the longest possible season of bloom in your gardens you must plant fall bulbs, some of which begin blooming as early as March. In both cases we offer in this Catalogue the best varieties, finest quality, at the lowest prices possible consistent with the high grades we shall use in filling orders. It is indeed gratifying to know that our Seeds, Bulbs and Plants have stood the tests of time and experience, but this high quality has often been maintained at a great personal and pecuniary sacrifice. We hope to hear from all our customers this, our Anniversary Year.

"THE MAYFLOWER."

The two following pages give some idea of the value of The Mayflower magazine, but for lack of space the fact is not told. Every one of our customers would take it if they knew its value. Just think of it! This delightful magazine with its fine colored plates (or colored plate covers) a whole year, and a premium of 3 valuable new plants for only 25c. (in clubs of five or more). In addition to this, the one who gets up a club receives a fine club premium for every subscriber secured. In view of these inducements we hope that everyone who receives this Catalogue will get up a club. By showing this offer and calling attention to all the good points of The Mayflower, as set forth, it will take but little effort to get most of your friends and neighbors to subscribe; thereby securing some club premiums, besides doing your friends a kindness in getting them The Mayflower for a year, and the fine premium for only 25 cents.

**GENERAL INSTRUCTIONS.**

**What We Do.**

We guarantee that everything we send out shall reach its destination in good condition, and that everything shall be received exactly as ordered. If a package is lost, or of any of its contents injured on the way, we will send again. We also guarantee everything true to name. We pack all Plants carefully in strong boxes, which insures their safe transit through the mails to the remotest part of the country or abroad. We fill all orders as soon as received, if the stock is ready. Customers who wish their order, or any part of it, before the Shipment is to be made, should state the fact. We ship only Seed to other foreign countries by mail, prepaid. We can ship only Seed to other foreign countries by mail, prepaid.

**What Buyers Should Do.**

Forward Money with the order, and at our risk, when sent by Post Office or Express Company’s Money Order, Bank Drafts, Bills or Coin by Registered Letters. We shall not be responsible for coin sent in ordinary letters, or for postage stamps.

Free By Mail. — We send Seeds, Bulbs and Plants FREE BY MAIL at the prices named in this Catalogue. This brings them to the very doors of our customers without trouble or expense. To some points, where the large express companies touch, we can send some orders as cheaply by express as by mail. In such cases we send by express, prepaid, and notify the purchaser to that effect.

By Express. — If a package is ordered to go by express, we do not pay the charges; but larger Plants, Shrubs and Fruits can be sent in this way, and we always add extra ones, more than enough to pay the cost. All the large express companies carry our goods at very low rates.

We guarantee that every package we send out shall reach its destination in good condition, and that everything shall be received exactly as ordered. If a package is lost, or of any of its contents injured on the way, we will send again. We also guarantee everything true to name.

We pack all Plants carefully in strong boxes, which insures their safe transit through the mails to the remotest part of the country or abroad.

We fill all orders as soon as received, if the stock is ready. Customers who wish their order, or any part of it, before the Shipment is to be made, should state the fact.

To Canada, Mexico, Hawaii, most of the countries of South and Central America, and the West India Islands, we can send goods in large parcels by mail, prepaid. We can ship only Seed to other foreign countries by mail, prepaid.

Stamps and Silver. — Please do not send postage stamps in payment for goods if it can be avoided. Coin, when sent in letters, should be sewed or pasted up in strong paper or cloth, to prevent its breaking through the envelope, which is frequently the case when enclosed loose. We will not be responsible for Coin sent to us except in Registered Letter, or for Stamps.

Write Your Order plainly and distinctly by itself and not mixed up with anything else you may wish to say. Those who send a neat, plainly written order will be sure to have it filled correctly and with dispatch, and will also receive some valuable "extras." Be sure to write your NAME and ADDRESS plainly.

IMPORTANT — It occasionally happens that an order is lost in coming to us, or the goods in coming to the customer; therefore, if any who order do not hear from us within a reasonable length of time, they should send a duplicate order, naming the date on which the former one was sent, and the amount of money enclosed, and in what form. This will enable us to investigate the matter and fill the duplicate order which do not contain duplicate, etc., as here mentioned.
MAYFLOWER PREMIUMS, FALL 1900.

THE MOST CHARMING HORTICULTURAL MAGAZINE IN THE WORLD.

Many Pages, Fine Illustrations and Superb Colored Plate each Month, at only 25c. per year, in Clubs of Five or More, including Premium—Single Subscription, 50c. per year, with Premium ; 25c. per year, without Premium.

A GREAT PREMIUM TO EACH SUBSCRIBER.
AND A CLUB PREMIUM TO THE CLUB RAISER FOR EACH NAME SENT.

OUR MAGNIFICENT PREMIUM.

FREE to Everyone Who Subscribes.

Every person who subscribes for a year (at 50c. singly or 25c. in clubs of 5 or more) will receive at once, by mail, the following 3 rare new plants, a Premium well worth a dollar. New subscribers and old ones renewing will get this Premium. In the case of clubs, each lot will be sent to the club-raiser for distribution.

Rose, Winter Gem—New; offered last year for the first time. A Tea Rose remarkably strong and vigorous growth and a prodigious bloomer all the year. It flowers all the time during winter, hence its name. The blossoms are borne on long, graceful stems, are of large size and of a lovely crimson-pink color. Buds perfectly exquisite. It is the strongest, hardiest, most vigorous and rapid growing Tea Rose in cultivation. See page 4.

Calla, Fragrans—(Everbloomer)—Probably the greatest novelty of last year and sold at 50c. each. It is an Everbloomer possessing the additional charm of delicious fragrance. The plants are of medium size, compact in growth and bloom profusely. It has not only a most charming flower, produced in profusion never before surpassed, but also with a genuine, sweet, lasting fragrance all its own, but similar to the fragrance of Violets or Lilies. With us it blooms all the time, and the flowers are very large and fine. See page 58.

Boston Fern—Of all decorative plants for house culture this is perhaps the most imposing and satisfactory. It is so hardy that it will stand and thrive in most any situation in a room, even if out of the reach of the sun's rays. No Fern is so good in this respect. Plants form an immense number of graceful, drooping fronds, varying in length from 2 to 5 feet, and always of a fresh, healthy and beautiful green color. These fronds keep in perfect condition for years. We cannot too highly recommend it.

Each one who subscribes will get the above 3 choice new Plants FREE.

See colored sketches on back cover of this Catalogue.

Club Premiums to Club Raisers.

A Fine Club Premium for Every Name Sent.

The MAYFLOWER is so good, and its Premium so valuable, that it is a very easy matter for anyone, man, woman, or child, to set up a Club among their friends and neighbors. We give the club-raiser a fine Premium for every subscriber sent in, and each subscriber in the club also gets one of our regular premiums offered above. The club-raiser may select one of the following five Plants or Bulbs for every subscriber sent us, and same will be forwarded free by mail:

1. Roman Hyacinth.
2. Cockade Hyacinth.
5. Double Sacred Lily.
7. Frosa, Giant French.
10. Ornithogalum Arabicum.
15. Filifera Palm.
17. Nepeta Glechoma.
19. Pkt. Pansy, Giant Exce or.
23. Lilium, Wallacel.
24. Lilium, Speciosum.
25. Lilium, Tenuifolium.
27. Iris Ruprideri.
28. Tree Blackberry.
29. Tree Strawberry.
33. The club-raiser may select for himself as many of the above premiums as there are names in the club. Or if preferred the club-raiser may select instead one of the following premiums for every 5 subscribers sent in.

34. Sacred Lilies, see page 18.
35. Oxalis, Grand Duchess, see page 21.
36. Liliun Spec., Opal, see page 31.
37. Giant Pansy, see page 51.
38. Canna Rainbow, see page 47.
39. Acalya Phandal, see page 39.
40. Flowering Vines, see page 48.
41. Foliage Plants, see page 49.
42. Pkts. Winter-blooming Seed, see page 34.
43. Pkts. Choice Pansies, see page 36.
44. Strawberry, Great Washington, see page 57.
45. New Giant Curants, see page 61.
46. New Grapes, see page 63.
47. New Peaches, see page 62.
48. Childs' Quince, see page 63.
49. Horticultural Books, see cover.
THE MAYFLOWER,
With the "WARBLER" and "DELICIOUS FOOD," without extra cost.

John Lewis Childs' Great Horticultural Magazine.

Its Pages Artistically Illustrated, and with One or More Fine Colored Plates of New Flowers, Plants or Fruits Each Month. The Leading Publication of the World on Flower and Gardening.

The Mayflower is devoted to the Cultivation of Flowers, Plants, Fruits and Vegetables, and to Gardening and Home Adornment in general. Each issue contains scores of interesting, attractive and valuable articles from our staff of contributors, representing every State in the Union, and nearly every country of the Globe. It goes monthly to every civilized country, and is the leading horticultural magazine of the world. It contains about 64 pages each month, bound in colored covers, with charming colored plates and elegant illustrations.

SUBSCRIPTION PRICE, only 25 cts. per year in clubs of 5 or more, including Premium. Single Subscription, 50 cts. with Premium; 25 cts. without Premium. Foreign Subscribers (except Canada), should send One Shilling (24 cts.) extra, for Foreign Postage.

STAFF AND CONTRIBUTORS.

JOHN LEWIS CHILD, Editor and General Manager.
WALTER NATHAN PIKE, Managing Editor.
JOHN F. KLEIN, Business Manager.
H. M. CARLETON, Mgr. Advertising Dept.
FRED. WEIGAND, Artist.

The Mayflower has a staff of over 100 contributors, among whom are the following:

- Mrs. Mary A. Miller, Alabama.
- Mrs. Harriet A. Hall, Arizona.
- Lawrence D. Fogg, Conn.
- Mrs. L. M. Townsend, Colo.
- Mr. J. Torrey Burr, Calif.
- Jennie S. Perkins, D. C.
- Irene L. Morse, Florida.
- Mrs. J. H. Park, Ga.
- Bernice Baker, Ill.
- Mrs. H. B. Monty, Ind.
- Manau Meredith, Iowa.
- Laura Jones, Ky.
- Mrs. G. T. Drennan, La.
- Dora Reid Cuttle, Mass.
- Mrs. W. J. Stahlman, Minn.
- Clara S. Evarts, Miss.
- Lora S. La Mane, Mo.

And a score of others, representing every State and Country.

As may be supposed, the articles on Flowers and Gardening, which come from all parts of the world, are intensely interesting and useful. Every number will well worth a year's subscription price. This is the verdict of our readers. Each issue is a mine of information, interest and beauty.

SPECIAL FEATURES.

EBEN E. REXFORD will contribute valuable articles for every month during the coming year.

CORRESPONDENCE, QUESTIONS AND ANSWERS. Under the heading of each individual State we publish interesting and useful letters from our readers, Questions and Answers, which makes this department of great interest and value to every subscriber. Nearly every State, as well as Foreign countries, are represented in each issue.

The following articles are now in hand ready to publish:

Orange and Lemon Trees as Decorative Plants. By Mrs. Emma Wilson, Va.
Our Spices. By Albert J. Klinck, N. Y.

Some Desirable Species of Gladiolus. By Dr. W. Van Fleet, Tenn.
Flower Perfumes. By Frank H. Sweet, R. I.

Also Several Articles on

Also Articles Entitled

INCREASED NUMBER OF PAGES.
An increase of many pages devoted to floral and garden topics will be one of the features, and we shall vary the character of our illustrations, using sometimes half-tone cuts and sometimes fine pen and ink sketches by our skillful artist.

THE WARBLER.
A decided hit, and has created great interest.

In addition to the increased space to floral topics we have added a little magazine on birds, which we will call "The Warbler." This is devoted to the study of our native birds, with a view to setting forth their usefulness, especially in the orchard and garden, and to agriculture in general, that people may learn how important it is to protect them from slaughter. Bird stories, anecdotes, bird ways, song, beauty, etc. This is a very interesting magazine of itself, but it will be bound with THE MAYFLOWER and be read as a part of THE MAYFLOWER. No extra subscription. It has proved a great success and pleased our subscribers immensely.

DELICIOUS FOOD.
From Garden and Orchard and How to Prepare It.

Another magazine of a few pages, which is also a part of THE MAYFLOWER, appearing every other month, and devoted to the art of preparing Fruits and Vegetables for the table. Not only the new and improved methods of cooking, but the preparation of Jellies, Jams, Sauces, Salads, Cooking, Preserving, Extracts, Fruit Candies, Ices, etc. This is thrown open to our readers for such suggestions, discussions, recipes etc., as may be desirable, which we will frequently offer prizes for good receipts and articles. Every housewife will be delighted with and benefitted by this magazine, and all will find their garden and orchard more enjoyable on account of a better understanding of the ways to prepare and serve their products. This also goes with THE MAYFLOWER, without extra cost.
HARDY OR HOLLAND BULBS.

In the flower garden they have wrested two months of each year from Winter’s stern grasp. Before the last snowdrift has melted, the Snowdrop, Scilla and Crocus appear, close followed by a score of others that have made the name "Spring Flowers" synonymous with beauty and fragrance. Indoors they have won equal triumph, and hold the place of honor for beauty, fragrance, easy culture and certainty to bloom. We make a specialty of supplying a grade of extra large and select Bulbs, the cream of Holland's annual output. We know that they are the best imported into the United States.

Culture for Winter Blooming.

How to Have Flowers in Profusion.

IN NEARLY every home there is someone who loves to grow Bulbs. The shortening days and fall rains often make a bulb collector of anyone who sees how easily and quickly one can get plants for flowers that bloom so early. The collection of Bulbs is a great pleasure, and any one who has two or more windows that can be used for that purpose, to fill these windows with beautiful flowers and plants during winter, will discover that he is not the only enthusiast, as the number of those who have a few bulbs and delight in them will lead to a proper selection of kinds. The proper plants will grow and thrive without any special care. They will bloom promptly. They will be beautiful and fragrant, brilliant and fascinating, and they cost very little. What are they? First and foremost we say Hardy Bulbs.

There is a following list of the most desirable bulbs for winter bloom, being of the easiest culture, and sure to produce the most satisfactory results:

HYACINTHS. The Queen of winter-blooming bulbs. Nothing can be more beautiful in colors of the sort, than the myriad of lovely Hyacinths, set in a row in the window. Easy to grow and sure to bloom for anyone, under any condition. The bulbs are guaranteed a five or six-inch pot, and will make a show fit for a Queen.

TULIPS. For brightness and brilliancy they are supreme. Great, nodding, cup-shaped blossoms which fairly glow with brilliant colors. And, on top of all, what a lot of rich varieties may be had for a few cents.

NARCISSUS. Golden and white colors of rare loveliness in numerous shades, which are often blended together in a charming manner. Exquisite forms, superb fragrance. The greatest rival of the Hyacinth and, like it, a free and sure bloomer and long-lived. Be sure to plant them freely, and not omit the Polyanthus varieties.

SACRED LILIES. Species of the Narcissus, from the Orient in which there are many that have a Pearl-like color, and well they may be, for what flower can be more lovely and fragrant, more fascinating and more lovable, or easier to grow than the Sacred Lilies. They are sure to bloom and bloom every year.

FREESIAS. Dainty flowers of the highest order. Delicate, charming and beautiful. Everybody loves them. We say, when small bulbs can be had for 10 cents there is no excuse for not having them in abundance. Plant five or six in a six-inch pot.

OXALIS. A few bulbs will fill a large pot with charming flowers, and the bulb will survive the winter and be in bloom as soon as planted. Cannot do without them.

IRIS. Some varieties, particularly Hispanics, are indispensable for winter blooming. They cost so little and a pot of five or ten bulbs will bloom each year, and each will produce enormous heads of exquisite flowers and create a sensation wherever seen.

CHIONODONXA and SCILLA SIBERICA. Rich colors in shades of blue, graceful, airy sprays of stars blossoms. To see them in a mass is to lose one’s heart in admiration; so easily grown, so cheap, so eminently lovely.

LYTHRUM and FRITILLARIA. Small flowers; little known and seldom seen, yet most charming in every particular and of trilling cost. Try them.

CALLAS. The most popular of window plants. Always seen where flowers and beauty are desired. Each bulb will produce enormous heads of exquisite flowers of the day. Easily grown, sure to bloom, and of the most delicate, rich and brilliant colors. Grow in a cool window.

LILIES. Two stately varieties for winter blooming—the Bermuda Easter Lily and L. Candidum. Their beauty, stateliness and rich fragrance has made them the aristocratic flowers of the day. Easily grown, sure to bloom, and of the most delicate, rich and brilliant colors. Passed for church and other decorations. But plant large, strong bulbs. Throw away no time or money upon weak ones.

The culture of all these Bulbs is very simple. They can be planted during September, October or November, watered well and set away in a cellar or any cool, dark place to make them rest and grow. The bulbs will bloom longer as desired, they can be brought out for blooming. We earnestly advise potting the bulbs as early as possible, as many of the flowers are desirable as early as spring, for the longer time they have to make roots the better they will bloom. By bringing out a few pots at different times a succession of bloom can be kept up all winter. If they are kept in a cool place while in bloom the flowers will keep perfect a long time. Bulbs are founded upon the benefit of those who desire more explicit cultural directions of the above-mentioned plants. Hereafter:

SOIL.—The variety of soil is not a very important item in bulb culture. Any good garden soil will answer but if we had a variety to choose from we would take a rich, sandy soil and mix it with a small quantity of leaf-mold. Do not use manure unless it is very old and well pulverized, and then only if there is not enough manure to cover the bulb. It is, however, a question of those who are and for early blooming. Plant in September or October if possible.

PLANTING.—In planting set the bulbs just below the surface of the soil and cover them very carefully. Set the bulbs down in the soil and cover them with it as for a pot. In this case, do not put them in by force, for this pack the soil under them, and will soon wither the bulbs, and ruin the flowers.

AFTER PLANTING.—They should be well watered and set away in some cool, dark place to make root. A cellar is best, for it is desirable that they should be kept moist and covered with leaves and other loose material. Keep them moist, cool, and let them be out of doors for a while during the warmest part of the year. Water them from time to time as the soil becomes dry. They should remain in this position at least four weeks, and then encourage them by bringing them into the house. Water them from time to time as the soil becomes dry. They should remain in this position at least four weeks, and then encourage them by bringing them into the house. Water them from time to time as the soil becomes dry. They should remain in this position at least four weeks, and then encourage them by bringing them into the house. Water them from time to time as the soil becomes dry. They should remain in this position at least four weeks, and then encourage them by bringing them into the house. Water them from time to time as the soil becomes dry. They should remain in this position at least four weeks, and then encourage them by bringing them into the house. Water them from time to time as the soil becomes dry. They should remain in this position at least four weeks, and then encourage them by bringing them into the house. Water them from time to time as the soil becomes dry. They should remain in this position at least four weeks, and then encourage them by bringing them into the house. Water them from time to time as the soil becomes dry. They should remain in this position at least four weeks, and then encourage them by bringing them into the house. Water them from time to time as the soil becomes dry. They should remain in this position at least four weeks, and then encourage them by bringing them into the house. Water them from time to time as the soil becomes dry. They should remain in this position at least four weeks, and then encourage them by bringing them into the house. Water them from time to time as the soil becomes dry. They should remain in this position at least four weeks, and then encourage them by bringing them into the house. Water them from time to time as the soil becomes dry. They should remain in this position at least four weeks, and then encourage them by bringing them into the house. Water them from time to time as the soil becomes dry. They should remain in this position at least four weeks, and then encourage them by bringing them into the house. Water them from time to time as the soil becomes dry. They should remain in this position at least four weeks, and then encourage them by bringing them into the house. Water them from time to time as the soil becomes dry. They should remain in this position at least four weeks, and then encourage them by bringing them into the house.

BLOOMING.—When brought from the cellar or storeroom the bulbs will bloom in a light, sunny window. See that they are watered freely, and that the air is fresh as possible. Keep them free from dust, and when in bloom they will much longer kept in a cool atmosphere than in a hot one.

Culture in the Garden.

Bulbs are especially valuable for outdoor planting, as they bloom at a time when the garden is utterly destitute and make us gay and attractive. See that the bulbs are planted as early in the spring as possible, and as soon as the snow is off, and are quickly followed by Hyacinths, Narcissus, Tulips, etc. The display of color and fragrance is enormous. Bulbs will bloom even after leaves are out, which is a decided advantage, as much of the flowering leaves may soon turn yellow and die, and are then replaced by green buds. Then was it that bulbs are grown, and stored away for planting again in the fall, leaving the hardy plants for the summer display, or, if desired, they can be cut for the table, and be very attractive.

PREPARATION OF BEDS.—Spade up so that the beds will be a little higher than the surface, so that water will readily drain off. If the soil is poor, add a liberal quantity of well-rotted manure to various mixtures, and from one to three inches deep.

TIME TO PLANT.—September and October are the best months for planting bulbs in the garden, though it may be done in November and December. Set them from one to six inches apart, according to variety or size, and from one to three inches deep.

PROTECTION.—After planting, the beds should be covered with leaves and manure (or more nourishing protection), which should be removed when the bulbs start in early spring. This is not necessary to save the bulbs for most kinds are perfectly hardy in any situation without protection, but it is most advisable to do it, for it preserves the vitality of the bulbs to a great extent, and when in bloom they will have a far better appearance than those which were protected.
OUR GREAT SURPRISE COLLECTION.

Larger and Finer This Year Than Ever Before.

$4.00 or $5.00 Worth of the Choicest Bulbs for Only $1.00.

We are obliged to grow and import enormous stocks of all kinds of Bulbs, generally more than is necessary, to make sure of having enough. It is our custom, after the heavy fall business is about over, in November, to take this surplus stock of various good things, make it into "Surprise" Collections, and offer same to our customers, giving them four or five times the value of their money. In fact, the "surprise" is the great amount of fine Bulbs one gets for the money paid. These collections cannot be sent out until about the tenth of November, and will be entirely of our own selection, from kinds of which we have a surplus. No collection will be made up for less than one dollar, and from that up to any amount the purchaser may desire. They will be sent free by mail, unless desired by express, and in that case we can send very much more for the money than by mail. All "Surprise" Collections ordered previous to Nov. 10th will be booked and shipped then, but we continue sending them up to the end of December. We advise our friends to invest a dollar or more in this collection. We can guarantee that they will be greatly pleased.

OTHER COLLECTIONS.

A Fine Bulb Collection.

30 BULBS, 10 SORTS, FOR 50c.

For only 50c. we will mail a collection of 30 Bulbs, 3 each of 10 different kinds, of our selection. They will be suitable either for pots or the garden, and afford one an opportunity of testing a good variety at little cost.

A Splendid Plant Collection.

10 SORTS FOR WINTER BLOOMING $1.00.

For only $1.00 we will send the following collection of 10 fine plants for winter decoration:
- Abutilon, Infanta Equinox
- Begonia, Vernon
- Golden Salvia
- Rainbow Canna
- Culla, Little Gem
- Manettea Vine
- Parrot’s Feather
- Weeping Lantana
- Rose, Champion of the World
- Filifera Palm

Hardy Perennial Plants.

7 BEST SORTS FOR 75c.

For 75c. we will send one fine plant each of the following kinds. Hardy Perennials:
- Perennial Phlox
- Rudbeckia Golden Glow
- Hardy Catchfly
- Mosquito Catcher
- Day Lily, Variegated
- Iris Kaempher
- Hemerocalliis

10 Fine Lilies for 80c.

For 80c. we send 10 fine Lilies, 10 sorts, named. See page 32.

6 New Fruits for 50c.

For only 50c. we will send one fine plant each of the following 6 New Fruits:
- Tree Strawberry
- Tree Blackberry
- Climbing Raspberry
- Mayberry
- Everbearing White Raspberry

12 Large Trees and Shrubs for $1.50.

For $1.50 we will send by express 12 large fruit trees and shrubs, all different sorts, our selection. They will all be new or extra fine sorts and strong, well established trees and bushes. This collection is really worth $5.00 and we make this offer only to get rid of some surplus stock, which will soon be too large to transplant.
BEST NAMED HYACINTHS.

Beyond doubt the Hyacinth is the Queen of Spring. Its hardness, ease of culture, and certainty to bloom would alone insure popularity, but it has the additional merit of being one of the most decorative and ornamental of plants. Its massive spikes of waxy flowers are of the most perfect shape and most delicious fragrance, while its colors sport into a hundred shades, tints and blendings. Out of the long list of Holland growers we have chosen the very cream of all varieties, either for pot or garden culture. The bulbs here offered are not of second size or inferior quality, but first-class in every respect, consequently our prices for same are very low.

We have tried to sell named Hyacinths at 15c. each, but the advanced prices in Holland and duty make it impossible to sell first size, large select bulbs, for less than 35c. each.

12 BEST SINGLE HYACINTHS.

**Amy**—Quite early; fine spikes of medium-sized flowers of a deep, clear, carmine-red, glowing with richness.

**Argus**—Fine flower and spike. Dark blue with large white center. Extra.

**Grand Marvel**—A most beautiful sort. Large spikes of handsome, bluish-white bells. Few so fine as this.

**Norma**—Beautiful pink, very large and an extra early bloomer. Exquisite.

**Pure D’Or**—Spikes of pretty corn-colored bells.

**Gertrude**—Tall, with heavy spikes of extra large flowers of a distinct shade of blue-pink, turning to silver-rose, striped carmine. Extra fine.

**Gigantea**—Thick spikes and large bells of a beautiful flesh color. One of the grandest sorts.

**King of the Blues**—An enormous compact spike of bloom, of deep indigo-blue color. In size and perfection this is one of the finest of all Hyacinths.

**La Francaise**—A magnificent variety. Large, long spikes of bluish-white blossoms, turning afterward to a snowy-white; petals very broad, and flowers of great substance measuring two inches across.

**Pleneman**—A magnificent sort, with enormous sky-blue bells arranged in graceful spikes of great size.

**Queen of the Blues**—(Single). Enormous spike; one of the very largest of all Hyacinths. Beautiful light blue with silvery appearance.

**Rousseau**—Fine large bells. Color a most delicate and charming blush.

**PRICE**—Extra large select bulbs 15c. each; the 12 for $1.50.

Mixed Single Hyacinths—A fine mixture of all colors at 75c. per dozen, $1.50 per 100.

12 BEST DOUBLE HYACINTHS.

**Bouquetendre**—Tall and compact truss; beautifully shaped flowers of a tender rose color.

**Bouquet Royal**—Fine light pink or blush. Extra large spike and very beautiful.

**Crootwot**—Compact truss, large and very double bells of blush-white, with a touch of blue-rose at center.

**La Virginiate**—Spikes of tubular bells; pure white tinted delicate blush.

**Prince of Saxe Wiemar**—Tall spikes of rich indigo-blue.

**Sunflower**—Split-lid large flower; one of the best yellow-roses.

**Lord Castlereagh**—Very double; white, flushed with violet. A beautiful spike and very fragrant.

**La Tour D’Auvergne**—Very early flowering, and the best of all double whites. Florets large and wax-like and spikes of immense size. Very early to bloom and the choicest double Hyacinth for pots.

**Noble Par Merite**—Fine, compact spikes of large double flowers, as perfect as little roses. A soft shell-pink, gradually deepening into a deep peach carmine.

**Othello**—Fine deep indigo-blue. A very fine and rare color of exceeding richness and beauty.

**Prince Albert**—A most charming variety, of rich indigo-blue, and large double flowers. One of the very best.

**Prince of Orange**—Extra large and magnificent spike. Color fine rosy crimson.

**PRICE**—Extra large select bulbs 15c. each; the 12 for $1.50.

Mixed Double Hyacinths—A fine mixture of all colors at 75c. per dozen, $1.50 per 100.
HYACINTHS.

New and Rare Hyacinths.

The following are rare or new varieties, and the grandest of all flowering Hyacinths. The bulbs are extra large and strong, and will give such blossoms as never before seen.

**Rosa Maxima**—(Single). Fine pink, of exquisite texture, Truss extra large and perfect. Probably the finest pink

**Obelisque**—(Single). A rare and exceedingly scarce variety, being the grandest of all yellow colors. Spike large and compact, while the color is the very best yellow.

**Lord Anson**—(Double). Fine large spikes, florets of perfect form; color soft blush-like, delicate and pretty.

**Marechal Niel**—(Double). A glorious Hyacinth, as double as a rose and of a charming soft pink color. A prodigious bloomer, each bulb throwing up as many as 12 spikes. A pot of 3 bulbs tested by us last winter showed 36 spikes in bloom at one time. On this account it is certainly one of the most remarkable and satisfactory of all sorts.

**Globosa**—(Double). Extra large truss of most exquisite pink color. A grand new sort.

**Milton**—(Double). Fine, compact spike of great size, and magnificent color, being a deep, dark red of peculiar richness. This is one of the very choicest varieties.

**La Grandeur**—(Double). The ideal double yellow variety. No other sort of the color can approach it in size and magnificence of spike, and the clear yellow tone.

**Ne Plus Ultra**—(Double). A very peculiar and pretty sort. Flowers large and double, pure white with a blue center, the two colors contrasting finely. Entirely unlike any other sort.

**General Havelock**—(Single Black). A grand single Hyacinth with enormous compact spikes of bloom which are of an indigo-black color. Its odd and striking color makes it peculiarly conspicuous, and it is indeed a rare and glorious plant when in bloom.

**Mammoth or Lily Hyacinth**—(Single). A new sort with gigantic pendulous bells, each one of which is almost as large as a small lily and of the same shape. Color, white, delicately shaded blush. A large spike of these beautiful lily-like bells is indeed a most superb object.

**Rol des Belges**—(Single). Fine, massive spikes, crowded with medium-sized flowers that open a rich self-carmine, gradually turning into a dark glowing crimson. The brightest color among Hyacinths.

**PRICE**—The above grand Hyacinths, 5c. each; 5 for $1.00; the 12 for $1.99.

Extra Mixed Hyacinths for Pots.

Here we offer finest Dutch named sorts, mixed. The bulbs are extra large and fine, selected particularly for winter blooming, and are as fine as the bulbs of our named sorts, and will give as good results for pot culture. $1.00 per dozen.
Pompon Hyacinths.

A class of Hyacinths with comparatively small bulbs, and, as they are usually compact growers, can be more cheaply grown than the larger bulb types. While the spikes scarcely average as heavy as other Hyacinths, the difference is small, and many specimens are fully equal to the best of the latter. They are splendid for either garden or pots, while for cutting they are best of all. Every hue, shade and color is found among them; the flowers are large and wax-like, and the spikes airy and graceful.

Mixed Pompon Hyacinths—All colors, double and single, 50c. per dozen; $3.75 per 100.

Mixed Hyacinths.

Our Mixed Hyacinths are not ordinary stock, but fine large bulbs which will give magnificent bloom either in the house or garden. We have marked prices down very low indeed.

Single Mixed, all colors, extra fine............. 50c. $1.50
Double Mixed, all colors, extra fine............. 75c. 4.50
Double and Single Mixed, extra fine............. 65c. 4.00
Pompon Mixed, all colors, double and single.... 2.50
Roman Mixed, all colors, double and single..... 2.50

Mixed Named Hyacinths

UNDER COLOR.

Double White, Mixed. Single White, Mixed.

Red, " " Red, " "
Pink, " " Pink, " "
Blue, " " Blue, " "
Yellow, " " Yellow, " "

Price of above 10c. each; the 10 for 80c.; or either color at 85c. per dozen.

Grape Hyacinth.

One of the sweetest little flowers imaginable, and in masses very striking, making a wave of intense blue that catches every eye. As hardy as an oak, and as it increases rapidly should be planted in quantities in every garden. Its spikes are just the size for button-hole bouquets, while its long stems enable it to be used to advantage in all bouquets or cut-flower work. If you want a "pot of blue," that will make your window a thing of beauty for a month in midwinter, plant half a dozen bulbs in a 5-inch pot, and treat as other Hyacinths, and you will have your desire. They never fail to bloom, each bulb sending up two flower-stalks that rise to a uniform height of eleven inches, each stalk being crowned with a two-inch spike of tiny white-capped balls of the purest, lemon-like shade of deep sky-blue.

Sky Blue—The most fairy-like of spring flowers. 3 for 5c.; 12 for 15c.; 100 for $1.00.

Indigo Blue—Fine deep indigo, tipped white. 3 for 5c.; 12 for 15c.; 100 for $1.00.

Snow White—Long spikes of milky whiteness. Fine for contrast, and quite new. 3 for 5c.; 12 for 15c.; 100 for $1.00.

Mixed Grape Hyacinths—All colors, 15c. per dozen; $1 per 100.

Cockade Hyacinth.

A real curiosity. First, a frizzed, cockade-like spike, an inch or two in length, appears above the soil, and as it slowly rises on its long stalk, it becomes five or six times as long as at first, developing into a long, feathery blue plume, and lasting for weeks in that condition. Perfectly hardy in the garden, and fine for pots. 5c. each; 3 for 15c.; 12 for 60c.

Hyacinthinus Belgicus.

A distinct species of Hyacinth that we urge our customers to plant largely. It resembles the Grape Hyacinth more than any other, yet it is very distinct, its spikes being much longer and looser and the bells wider and larger in every way. It is also equally adapted to garden or pots, producing a mass of bloom that is very striking and beautiful. Should be planted in masses to produce the best effect. Five or six bulbs may be planted in a 4-inch pot, and will need no more care than other Hyacinths. We offer this species at prices so low that our customers can afford to plant them in quantities. There are three colors, white, pink and violet. Price of mixed bulbs, 2 for 5c.; 3 for 15c.; 12 for 60c.
Roman Hyacinths.

Not at all like the Dutch or Show Hyacinths, though they do not suffer by comparison. The slender stems, arching beneath their load of daintily poised bells, are the same of grace and elegance, while so many spikes are thrown up from each bulb that the whole pot appears a mass of bloom. Roman Hyacinths are extra good for cutting, and so early that they bloom by Christmas, or before, remaining in perfection nearly a month if the room is not kept too warm. They are extremely early and bloom in the garden with the Crocus. Two bulbs can be planted in a 6-inch pot, or 3 bulbs in a 5-inch pot. The bulbs we offer are extra large and strong, superb for winter blooming.

**Single White**—The most popular of all. Every window should have several pots of these. Exquisite bells, white as the driven snow and pleasantly fragrant. Never fails to bloom. Extra large.

**Single Blue**—Dark blue bells. About ten days later than the white, with which it forms a fine contrast. A great bloomer. Extra large.

**Double Light Pink**—The double Roman Hyacinths are larger than the single sorts. This sort has elegant waxy bells of pale shell pink.

**Double Dark Pink**—Like the above, but a beautiful, clear, bright rose. Spikes long and heavy for this class.

**Price**—Extra large bulbs, 6c. each; the 3 for 15c.; 5 for 25c.; Either sort at 50c. per doz.

Canary Yellow Roman.

Beautifully shaped bells in airy, graceful spikes in color a soft, pleasing canary yellow. Really the finest of all yellow Hyacinths. Large select bulbs, 15c. each; 3 for 40c.; 12 for $1.50.

Double White Roman.

This new double white sort needs no special praise to induce people to plant it. The spikes of bloom are large and fine, flower double, pure snow white and very fragrant. 15c. each; 3 for 40c.; 12 for $1.50.

Mixed Roman Hyacinths

A very fine mixture of all sorts, double and single. Large select bulbs, 50c. per doz.; $2.50 per 100.
Specialties in Gorgeous Tulips.

We make a leading specialty of Tulips this season, our growers having furnished us with an enormous surplus of extra fine, select Bulbs at a great sacrifice in prices. We give our customers the benefit of this, and advise them to plant them largely. Tulips are the most gorgeous and satisfactory spring flowers. Remember that these low prices do not represent second-class bulbs (we do not keep such), but strictly first quality, large and select in every way.

There is no question but that the Tulip is the most popular spring flower that grows. The soft, seductive breezes have scarce whispered in our ears that spring is at hand, ere our eyes, wearily of winter's dull, sombre, lifeless tints, are dazzled by a sudden blaze of Tulips in rainbow shades, ribboning the earth with warmth and color. From the first Duc Van Thol, scarce peeping above the ground, to the last Gesneriana Tulip, holding its flaming cup high aloft, there is a constant succession of Tulip beauties—single, double, dwarf, tall, early, medium, and late, with blossoms cup-shaped, star-formed, bowl-like, Peony-flowered, imbricated like a rose, or twisted, waved, and horned, like the plumage of some fantastic bird. No garden can be complete without plenty of Tulips. Have some of all kinds, they are so cheap.

Mixed Tulips.

Our mixed Tulips are of extra fine quality, being made up from first-class named sorts and much superior to the ordinary grades.

12 TULIPS—DIFFERENT CLASSES FOR 50c.

For 50c, we will send one fine bulb each of the following twelve distinct classes of Tulips:

Single, Early, Byblooms, Variegated Foliage,
Double, Early, Bizzards, Sweet Scented,
Parrot, Gesneriana, Persica,
Duc Van Thol, Picotee, Darwin.

This collection furnishes a fine study of the different classes, and will be most attractive and interesting when in bloom.

Parrot Tulips.

A flower more bizarre, fantastic, or grotesque, would be hard to find. A bed or clump of them always attracts much attention. They are six, seven and eight inches across, with petals toothed, horned, twisted, and waved, now loosely incurred, now spread flatly out like a star. Some are yellow, some are crimson, or again dashed, flaked or feathered with green, gold or scarlet. Fine to plant among shrubbery, or for bedding. They grow ten inches in height, and bloom just after the double Tulips.

Constantinople—Fine deep crimson.
Gloriosa—Yellow, splashed and streaked crimson and green.
Perfecta—Gally striped, yellow and red.
Lutea Major—Fine yellow.

Tulipa Gesneriana.
The grandest Tulip in existence. Tall growing and late blooming, with large, long leaves, and tall, erect flower stalks, which support great waxen blooms larger than tea cups, of the most vivid, glossy, coral red, each flower showing a deep blue-black blotch at the base, that further enhances its beauty. They remain in bloom a long time, and clumps of this grand flower are particularly fine planted among evergreens or shrubbery, lighting up their sombre background as with a flaming torch.

Scarlet, Blue Center — The true Gesneriana as described above.

Golden Yellow — Exactly like the above, except a golden yellow color. A superb novelty.

PRICE, 5c. each; 3 for 10c; 12 for 35c.

Bizard and Bybloom Tulips.
It seems strange these are not more commonly grown, for their large, cup-like blossoms, feathered and shaded as only a Tulip can be, are always admired more than any other. Byblooms have white, light or violet grounds, feathered and feathered, rose, lilac, pink, purple, violet, scarlet, black and crimson. Bizards have yellow grounds, flamed and blazed maroon, black, scarlet, bronze and brown. We offer a fine mixture of every imaginable color and marking. We know our customers, if they could but see a bed of these in their gorgeous splendor, could not resist planting them.

Byblooms — White ground, variegated with various colors. Fifty finest sorts, mixed, 5c. each: 3 for 10c; 12 for 35c.

Bizards — Yellow ground, variegated. Fifty fine sorts, mixed, 5c. each: 4 for 10c; 12 for 30c; 100 for $1.25.

Duc Van Thol Tulips.
These are the best of all for house culture and the first of all to bloom out of doors. They are noted for the depth and purity of their colors and as they bloom two weeks in advance of all other Tulips, are quite indispensable in the garden, as well as the house for winter.

Crimson — Fine for contrast.
Gold Striped — Scarlet, striped gold.
Rose — White, shaded with clear rose. Delicate and beautiful.
Scarlet — Brilliant, dazzling scarlet.
Violet — Lovely violet-crimson, white border. Very distinct and handsome.
White — A fine pure color.
Orange — A fine bedder.
Vermillion — Fine bright color.

PRICE — 5c. each; the 9 for 25c; 35c. per dozen.

Mixed Duc Van Thol Tulips — All colors, 25c. per dozen; $1.25 per 100.
Single Tulips.
The Single Early Tulips are great for bedding and for winter blooming in pots. The following are the very best kinds.

FIVE VERY FINE SORTS.

Cardinal's Hat—Rich blood scarlet; gold tinted border.

Duchess of Parma—Extra large, early, and gloriously colored. Orange-yellow shading to terra cotta, with fiery yellow and brown shadings. Bright and showy.

L'Immaculée—Beautiful snow-white flower with lemon eye.

Purple Crown—Fine cup-shaped flower of maroon-cardinal.

Van Der Neer—A splendid large flower of a rare and lovely bright violet color. Very distinct.

Price of above, 3c. each; the 5 for 15c.; 25c. doz.

SIX EXTRA FINE SORTS.

Chrysolora—Very large flower and widely opened. Color, a solid golden yellow.

Color de Cardinal—Large cup-shaped blooms of a rich cardinal-red. Intensely brilliant.

Kaiser Kroon—Outside of each petal bright scarlet, broadly bordered yellow; inside deep yellow zoned with wide center band of velvety scarlet glowing like fire. Extra large size.

Miltiades—Large elegant flower, splendidly cupped. Pure white exquisitely shaded and clouded with soft pink.

Silver Standard—Beautifully shaped flowers of a fresh carmine-scarlet, striped and feathered white. Very showy.

Wowerman—Extra large and fine. Deep magenta red.

Price, 5c. each; the 6 for 25c.; 3 of each 60c.; 25c. per doz.

SIX RARE AND GRAND SORTS.

Cottage Maid or La Precieuse—Lovely pink and white, most charmingly suffused and feathered, of immense size, most unique in color and one of the loveliest Tulips that ever bloomed, either for pots or the garden.

Gloire de Rigaud—Very large, round flower of a rich lilac shade, freely striped and flaked pure white.

Joost Van Vondel—Beautiful bloodsCy rose, deep rich red and true white, the colors mingled and blended together in a charming manner. One of the largest and very finest.

Proserpine—A grand flower and a superb color. Exquisite rosy scarlet, a shade not found in any other sort, and lovely beyond description. Of great size and beautifully cupped.

Verboom—Flower of gigantic size, and richest glowing scarlet red. Extra early and fine in every way.

White Swan—Large, pure white flowers; extra fine for winter blooming.

Price, 5c. each; the 6 for 25c.; 3 each 60c., or 25c. per doz.

THE ABOVE 17 SORTS FOR ONLY 60c.
Double Tulips produce very large double flowers, many of which are as large and showy as a Peony. The bright colors of the large double blossoms contrast splendidly and make a charming display.

8 VERY FINE SORTS.

Blue Flag—Late. Flower beautiful shape; a distinct color of purple-blue.
Double Crown—Large and double flower. Dark cardinal-red with black shading. One of the best.
Duke of York—Beautiful incurved flowers of upper-red, broadly edged white.
Gloria Solus—Of enormous size and very double. Bright scarlet, edged yellow.
La Candeur—Large and double; wax-like pure white. Largely used for cemetery planting.
Ma Cousine—Of remarkable coloring. Carmine-violet, edged pink and flamed golden yellow and brick-red.
Rose La Reine—Fine rosy scarlet. A lovely color.
Yellow Rose—A magnificent sort, of very largest size and most perfect form. Deep, brilliant yellow.

Price 5c. each; the 8 for 30c.; 3 each 50c.; or 25c. doz.

8 EXTRA FINE DOUBLE TULIPS.

Alba Maxima—Enormous flower, perfectly double like a Peony, pure white in color, with delicate shadowy tinge of soft pink. Exceedingly fine.
Count of Leicester—Another very distinct and finely colored sort. Light orange, feathered yellow.
Mariage de Ma Fille—Immense flower of the most perfect shape and superb coloring. Carmine-red, banded, striped, flaked and feathered with pure white.
Murillo—Large graceful flowers of flesh-white, bordered and clouded rose.
Queen Victoria—Blood-red. Very double.
Rex Ruborum—Large double flower of deepest scarlet. Very double and perfect.
Rose Blanche—Large incurved white; most perfect shape.
Salvator Rose—Gigantic size, elegant shape and of the loveliest soft rosy color, with pure white stripes.

Price 5c. each; the 8 for 30c.; 3 each 75c.; or 25c. doz.

THE 16 SORTS FOR 50c.

Splendid Mixed Double Tulips. All colors and varieties, 25c. per doz.; $1.50 per 100; $12 per 1,000.
Darwin Tulips.

A new race of Tulips which produce only solid self colors and bloom early in May. The flowers are of great size like Gesneriana and are borne on tall graceful stems. The colors are exceedingly rich and varied, ranging through all the shades of rose, deep red, violet, purple-blues to coal black. They are probably the most showy class of tulips in cultivation, a bed of them producing an effect which for rich splendor is not surpassed by any other flower. A valuable novelty which all should try.

Mixed—All colors and shades, fine bulbs. Doz. 35c.; 100, $1.25

Picotee Tulips.

These are quite new, and to our minds, the most exquisite of all. They bloom after the single early varieties, or about the same time as the Byblooms. Flowers very large and borne on tall, graceful stems, like Gesneriana. Each petal has a distinct border of bright crimson, which is most beautiful, and gives them the name of "Picotee." They are extra fine for winter blooming and for the garden, but they will show the most color in the garden.

Picotee White—Exquisite wavy petals of large size; pure white with a fine border of crimson, which makes the flower exceptionally beautiful.

Picotee Yellow—Golden yellow with crimson edge.

Price—5c. each; 6 (or each), for 25c.; 100, per doz.

Variegated Foliage Tulips.

These Tulips are doubly desirable in that the foliage, as well as the blossoms, is very handsome. The broad green leaves are elegantly bordered or striped with white or cream-yellow, which sets off the brilliancy of the blossoms to great advantage. For pots they are just superb, and bloom splendidly in mid-winter. For the garden they are novel.

Mixed—All colors, double and single, 3 for 10c.; 12 for 35c.

Sweet Scented Tulips.

A new class of Tulips, with a charming fragrance, as well as beauty and brilliancy. Customers will be delighted with them either for pots or garden.

Florentina—Large, golden-yellow; very sweet. Buds, when closed, look like an enormous Tea Rose.

Macrospia—Brilliant red, with dark, zone-like center, bordered yellow. Size of Tulip Gesneriana.

6c. each; the 2 for 10c.; 50c., per dozen.
THE NARCISSUS.

The Narcissus is fast becoming a rival to the Hyacinth and Tulip. The massive spikes of the one and the vivid colors of the other are missing, but the Narcissus—the Daffodil of the poets—has charms of its own to counterbalance these. For cutting or wearing it is the best of the three, being by far the best vase flower of the spring. Most of the garden sorts are particularly showy in masses, and do not require frequent re-setting to keep in vigor and flower, needing no care. In fact, beyond the planting. Others of this family are among our best pot bulbs, their clustered stars and stately trumpets of white and cream, lemon, orange and yellow, giving variety, fragrance and warmth of color to our window gardens. In pots they may be had in bloom from Christmas until April. Out of doors, from the earliest to the latest, they last fully two months. Our collection is a particularly choice one and true to name. We offer our bulbs at a low price to encourage extensive planting. Try a few bulbs, both for the house and garden. They will prove so beautiful and increase so rapidly you will feel doubly repaid for your outlay. They can be grouped along the border of shrubbery, or at the foot of rockeries, or under trees. Everyone should have early, medium and late sorts, as well as some of each of different types.

NARCISUS CORBELATA.

Narcissus corbulata.
A rarely beautiful flower, both for winter blooming in the house or for the garden. Three to six bulbs can be planted in an ordinary pot and will produce a charming lot of flowers during February and March. Each bulb bears 3 or 4 flowers at a time. 6c. each; 3 for 15c.; 12 for 60c.
Single Narcissus.

The airy grace and refined beauty of the Single Narcissus has no superior and few equals among flowers. The beautiful trumpet forms are the height of floral beauty, and the colors harmonious and refined.

7 FINE NARCISSUS, CHEAP.

Leedsl—A lovely early sort, pure white perianth, straw cup.
Trumpet Major—Golden yellow. One of the best for massing. Fine also for winter blooming. Early.
Scoltis or Cotland—Perianth white, trumpet yellow. Extra for forcing.
Stella—A favorite vase or corsage flower. One of the best for house culture. Extra large, star-like flowers, creamy white, with clear yellow cup. Early.
Princpex—Elegant large trumpet of a delicate canary yellow, and large sulphur-white perianth. One of the most elegant and beautiful of all Narcissus. A very early bloomer, and extra fine either for the garden or for winter blooming in pots. Plant it largely.
Nana—The lovely dwarf golden Daffodil.
Incomparablis Simplex—The fine old golden Daffodil.
Price, 4c. each; any 3 for 10c.; the 7 for 20c.; or 50c. per dozen.

7 GRAND AND RARE NARCISSUS.

Golden Spur—Flower 4½ to 5 inches across and nearly as long. Petals of the perianth broad and smooth, long and widely flared trumpet, with deeply frilled and furrowed border.
Sir WAtkins—Is of the chalice-flower type, or half-trumpet form. A gigantic flower, 4 or 5 inches across, with broad wing-like petals that shade from canary yellow at the tips to golden yellow base. Cup, golden yellow.
Golden PiOver—Large golden yellow, round shape, great size and beauty.
Moschatus—Large, trumpet-shaped flower of a pure white color throughout. The blossoms are of exquisite shape and tendons or nodding, unlike any other sort.
Emperor—Broad, rich yellow trumpet, perianth deep primrose. Its foliage is very strong and the blooms enormous.
Empress—Possesses the same gigantic size and fine form of Emperor, but with golden perianth and white trumpet. Superior to Horsfieldi, which it somewhat resembles.
Cyclamen Flowered—An elegant variety, bearing several white, Cyclamen-like flowers on a stem. Novel and perfectly elegant, especially for pots.
Price, 10c. each; and 5 for 50c.; the 7 for 80c., or 75c. per dozen.

MIXED NARCISSUS.

All sorts of Double and Single, many varieties, and will make a magnificent bed, blooming year after year. Per dozen, 50c. per 100, $1.50.

Double Narcissus.

Double Narcissus are very attractive on account of their large, perfectly formed blossoms, long keeping qualities and early blooming. The line, harmonious colors of white, lemon, orange, sulphur, straw, primrose, etc., are exquisite.

Aurantius—Beautiful Gardenia-like flowers, and very double. The large outer petals are sulphur yellow, the small center petals of sulphur and orange.

Albo Pieno Odorato—A pure white flower of medium size, but very double. Late.

Incomparable—Medium early. Large, handsome flowers, as double as a rose. Bright canary, interspersed with orange center petals.

Pumulus Pienus—Pure yellow; very double. The old-fashioned Daffodil.

Orange Phoenix—Nearly pure white outer petals. Center well filled with mixed white and deep orange petals.

Van Sion—Old, but unsurpassed. Extra fine for cutting. Single star-like petals and long, double trumpet, filled with beautiful crimped petals; golden yellow.

PRICE of above mixed Double sorts, 6c. each; the 6 for 35c.; any variety at 10c. per dozen.
Polyanthus Narcissus.

The Gem of Winter Flowers

They are considered the best of all Narcissus for pot culture, and by many esteemed the most beautiful. By starting the dry bulbs at intervals from September until January, a succession of flowers can be secured from Christmas until the first of May. No trouble to grow, treat as you would Hyacinth. The flowers of this class are borne in large clusters and are exceedingly fragrant, like orange blossoms.

Grand Soleil d'Or—This has every possible merit, without a fault. A medium early bloomer that lasts a full month in flower. Large clusters of exceedingly pretty flowers of a clear lemon with deep orange cup. Very fragrant.

Groothorst—White with lemon cup. Very pretty and of good size. No variety possesses a richer fragrance than this.

Lord Canning—Extra fine, of a deep or dark yellow color; the petals being a little lighter in shade than the cups.

Queen of Netherlands—Very early and extra large and fine. Pure white; exquisite fragrance.

Bathurst—Fine pale yellow, delicate and beautiful, and contrasts finely with other colors. It is in fact so distinct as to be necessary to make any collection complete.

Newton—Fine yellow with deep orange cup. Extra free bloomer and early.

PRICE—5c. each; the six for 30c. Any variety at 15c. per dozen.

Mixed Polyanthus Narcissus.

While we offer but 6 named sorts of Polyanthus Narcissus, there are 30 to 50 sorts grown and offered separately in Holland, all of which are represented in this mixture. Those who desire to plant a good many should by all means take a dozen or more mixed bulbs. The named sorts offered above are undoubtedly the best sorts grown, yet for variety we would recommend this mixture, which is made up especially for us, and is exceptionally good.

Mixed, all Colors and Varieties—30 to 50 sorts. 3 for 15c.; 1 for 30c.; 12 for 50c.
Narcissus Poeticus.

Well known and loved by all. Exquisite garden flowers are equally valuable for winter blooming in pots, of which Ornatus is the grandest. Try them.

Poeticus, Pure White—With scarlet-edged crown. Very fragrant. Late. 3c. each; dozen, 30c.; per 100, $1.50.

Poeticus Ornatus—Fine for either garden or pots. Blooms three weeks earlier than the plain Poeticus, and is even larger and finer. 4c. each; 3 for 10c.; dozen, 35c.; 100, $2.60.

Poeticus Poetarum—Pure white with orange-scarlet cup. 5c. each.

Poeticus, fl. pl. Double—The charming double Poeticus. Pure white with Jasmine fragrance. 4c. each; doz., 35c.

The 4 for 15c.

Jonquils.

(SPECIES OF NARCISSUS)

These dainty flowers are a gleam of gold when in bloom and large clumps or masses of them are always admired. They are extra fine for pots, from their beautiful color, profusion and delightful fragrance and they flower very early in the window. In the garden they are perfectly hardy, and their lovely and delicious blossoms appear almost as soon as the Crocus. Plant a few at least. No garden complete without them.

Single—Very dainty blossoms of pure gold and such exquisite fragrance. Plant a good lot of them if possible. 3c. each; 5 for 10c.; 12 for 30c.

Double—Perfect little golden roses of the most exquisite beauty and fragrance. Nothing finer for bouquets. 5c. each; 3 for 15c.; 12 for 40c.

Giant Odorous—We think this one of the finest yellow-flowered bulbs on our list. Flowers twice the size of other Jonquils, but retaining the same beautiful color and handsome shape, together with profusion of bloom. Its fragrance is lovely beyond description. This bulb is so eminently fine and so very cheap every garden should be supplied with it. The much prized Golden Sacred Lily is an improved variety of this exquisite Jonquil. 5c. each; 3 for 15c.; 12 for 40c.

1 each of the 5 sorts for 10c.

Sacred Lilies.

Of all winter flowers the Sacred Lilies are probably the most popular and universally grown. Few flowers equal them in beauty and fragrance and none in free growing and blooming qualities.

Chinese Sacred Lily—This is the one great winter-blooming bulb which is more eagerly sought after than any other. The bulbs are very large, and each one sends up from five to twelve spikes, which bear clusters of large, perfect, wax-white blossoms, with a yellow center, and of a powerful and delicious fragrance which is not excelled by any flower. They grow well in pots or soil; but the most popular way of blooming them is the Chinese method, as follows: Fill a bowl or some similar vessel with pebbles, in which place the bulb, setting it about one-half its depth, so that it will be held firmly; then fill with water to the top of the pebbles, and place in a warm sunny window. The bulb will at once commence a rapid growth and bloom in two or three weeks. Our bulbs are expected to arrive from China in September. Orders for them will be booked and the bulbs sent out as soon as they arrive. To make sure of getting the best bulbs, order as early as possible this fall. 1c. each; 3 for 10c.; 6 for 15c.

Japanese Double Sacred Lily—This is very fine, with large clusters of double blossoms. Offered last year for the first time and sure to become very popular. Pure white with orange center. 15c. each; 3 for 30c.; 12 for $1.00.

Golden Sacred Lily—As compared with the Chinese Sacred Lily this produces a much larger flower, though the bulb is smaller. Its fragrance is even better and its color a deep glowing yellow (see next page). 6c. each; 2 for 10c.; 6 for 50c.

1 each of the 5 for 50c.

DOUBLE AND SINGLE SACRED LILIES.
THE GREAT GOLDEN SACRED LILY

A Magnificent Winter Flower Which Each One Should Plant.

As compared with the Chinese Sacred Lily this produces a much larger flower, though the bulb is smaller. Its fragrance is even better and its color a deep glowing yellow. Each bulb produces several spikes of bloom, and thrives in soil, sand, or pebbles and water, as described on opposite page. Bulbs bloom very quickly after planting and may always be had for Christmas and New Year’s, or even earlier. No winter flower is more beautiful, fragrant, or easier grown. May be had in flower at any time all winter, stands freezing and any amount of abuse, and is sure to do well for anyone in any window. The bulbs are so cheap that three or four should be planted in a 5-inch pot or a bowl of pebbles and water. It is also perfectly hardy and may be planted in the garden, where it will bloom in spring, almost as early as the Crocus. This splendid flower is a highly improved species of the great Narcissus family, as is also the Chinese Sacred Lily. Fine large flowering bulbs, 6c. each; 2 for 10c.; 6 for 25c.

SPECIAL OFFER:—For only 30c. we will send one each of Chinese, Japanese Double and Great Golden Sacred Lilies.
Giant Flowered Crocus.

A few special extra large-flowering sorts of which we offer extra fine bulbs for winter blooming.

Giant White—Enormous pure white lily-like blossoms.

Giant Yellow—It is astonishing the amount of blooms a single bulb of this Crocus will furnish. The handsome flowers are very large and brilliant and a row of them is a wave of gold. Not another flower of its season makes such a display of brightness or becomes such a complete mass of bloom. More than twenty blooms have been counted from a single bulb. Bulbs are about the size of a Tulip and bloom extra early.

Giant Striped (Lord Fielding)—Great blossoms beautifully striped violet on white ground.

Giant Blue (Sir J. Franklin)—Largest and finest blue.

PRICE of above Crocus, 2c. each; 20c. per dozen. One each of the 4 sorts for 10c.; 3 each for 25c.; 12 each for 80c.

Giant Flowered Mixed—This strain is a special mixture of the best new sorts and improved seedlings, prepared for us in Holland by those who make a specialty of these bulbs. Only those sorts with the largest flowers and best colors are admitted in the mixture. Either for garden or house this Crocus mixture cannot be surpassed. Crocus for the house do not thrive under dry heat or gas, but do well in any sunny window of moderate temperature: they can even be grown in rooms almost destitute of fire heat. This strain of Crocus will be to our customers a revelation of beauty such as they cannot anticipate. Try them, both in the garden and in pots, by all means. Do not miss the beautiful treat they will afford you. 5c. per dozen; $1.00 per 100.

Select Crocus.

The Crocus is the recognized harbinger of spring. Between the full of late winter’s tempest is brave little flowers first appear, minding not the least frosts or flurries of snow. For six weeks its bright flowers smile sunny at us, quite sure of their welcome. Their cost is so trivial that all can afford to plant them freely. The Crocus has been much improved late years in size of blooms and variety of colorings. Crocus are extra fine for borders, etc., and are particularly charming dotted by twos and threes over the lawn. When up, they come in earliest spring and peep through the grass, as the wild flowers do in the meadow.

Fine Mixed Crocus—Of all colors. Fine, select bulbs, 10c., per dozen; 60c., per 100; $1.00 per 1,000.
Iris.

A most desirable garden flower, and in many respects one of the most charming and satisfactory. These varieties are all perfectly hardy and fine for the garden. All are fine also for winter blooming.

Hispanica—Magnificent plants both for pots and the garden. They bloom early and profusely, and are exceedingly showy. The colors are brilliant and cover a large range of different shades and combinations. Four or five bulbs planted in a 5-inch pot make a beautiful display for a long time in winter, and are absolutely sure to bloom well in any situation, treated like Hyacinths. In the open ground they are perfectly hardy, increase rapidly, and make a magnificent display. It is really one of the most satisfactory of all Holland bulbs, and as they are very cheap we advise our customers to plant them largely both for winter blooming and in the garden.

All Colors Mixed—2 for 5c.; 12 for 15c.; 100 for $1.00.

Pure White—Large and fine. 15c. each; 3 for 35c.; 12 for 1.00.

Pure Yellow—Rich deep golden. 25c. per doz.

Blue—A fine rich shade. 25c. per doz.

Anglica—Very fine, with large broad-petaled flowers and rich colors. Blooms a little later than Hispanica. All colors, mixed, 5c. each; 4 for 10c.; 12 for 25c.

Persica—Exquisite large blossoms of a greyish color, beautifully marked with peacock spots. 3c. each; 3 for 10c.

Atropurpurea (The Black Iris). Very large and beautifully shaped flowers of a deep black color, silky texture and luster. One of the finest novelties in years, its rare and fine color making it particularly attractive. 35c.

Histrio—A lovely combination of colors. Deep sky-blue, with blotches and markings of white and yellow and tints of various shades. Perfectly exquisite flower and one possessing a perfume which for richness and peculiar delicacy is not excelled by any other flower. 30c.

Susiana—Perhaps the most beautiful Iris in the world. Delicate straw-colored ground, blotched with crimson, brown and black, and with thin blue veins. It is impossible to give any idea of its beauty. 30c.
Oxalis.

These varieties of Oxalis are all for winter blooming. They make the most beautiful hanging pots and baskets, producing a mass of flowers all winter, which, in brilliant and beautiful colors, are truly charming. Winter-blooming Oxalis are always sure to please. Placed five or six bulbs in a 6-inch pot, they commence growth immediately after planting and need not be set away to form roots like most other bulbs. They bloom during the entire winter, a thing we can expect of very few plants or bulbs, and are for that reason doubly worthy of a place in every collection of winter-blooming bulbs. Our bulbs are particularly fine, and the Grand Duchess, Bermuda Buttercup, and Veriscolor, will be found to be exceedingly showy and free blooming.

Bermuda Buttercup—A fine, robust-growing, large-flowering sort from Bermuda. Blooms in enormous panicles, each flower being as large as a silver half-dollar and of a clear bright yellow color. Bulbs commence blooming soon after planting and continue all winter without a break. Easily grown in any window and a most satisfactory winter-blooming bulb.

Multiflora Alba—A good sort producing pure white blossoms.

Bowl—Extra large brilliant red blossoms and luxuriant foliage. One of the very best.

Lutea Major—Bright golden yellow in large clusters. One of the most magnificent.

Veriscolor—The prettiest of all. Beautiful foliage and compact growth with an abundance of large pearly-white blossoms, each petal having a wide border of brilliant scarlet, a combination which is truly charming.

**PRICE of all the above** 5c. each; 12 for 30c. One bulb each of the 3 fine sorts, 20c.

Oxalis, 25 Sorts—A fine mixture of a great variety of fine winter-blooming sorts, 15c. per doz.; $1.00 per 100.

Double Yellow Oxalis.

(See Sketch on Cover.)

This is entirely new, offered last year for the first time. There is no doubt of its being the grandest Oxalis, and one of the most beautiful and taking winter flowers it is possible to have. Blossoms immense, 3 inches across, borne well above the foliage, and of the most lovely pink color; leaves, large, clover-shaped and handsome. A most persistent bloomer, remaining constantly in flower from November to June. Surely one of the finest and most reliable of all winter-blooming bulbs. We have two colors to offer, bright pink and pure white.
Freesias.

A new class of Bulbs, splendidly adapted to winter blooming, and are, we believe, the most popular winter-blooming Bulbs for amateurs. They are always sure to succeed and bloom elegantly for anyone in any situation, and the great beauty and fragrance of the flowers are everywhere admired, almost as no other winter-bloomer is. The blossoms or buds when cut and placed in vases of water will keep perfect two weeks. In pots they commence blooming early and continue for a long time, the stems branching freely and producing several clusters of bloom in succession. Four to six bulbs can be planted in a 5-inch pot. They commence growth immediately after planting and need not be put away to form roots like Hyacinths, unless it is more convenient to do so. Planting successively from September to November will give a succession of bloom through the winter. We cannot too earnestly urge customers to plant this charming winter flower. Their free growth, abundant bloom, delicate beauty and charming fragrance will be a surprise and delight to all. The bulbs we supply are extra large and strong.

Various Colored Grandiflora—This grand new strain is the finest of all Freesias, possessing tints, colors and variations not before seen. Not only are the white and yellow colors, seen, but pink, orange, violet, primrose, canary and some purple shades so deep and rich as to be almost red. The flowers are of gigantic size and borne in extra large clusters. The fragrance is rich and powerful. All colors mixed, 5c. each; 6 for 20c.; 12 for 35c.; 25 for 60c.

Refracta Alba—Pure white, very sweet and popular. Fine large bulbs. 2 for 5c.; 10c. per dozen; $1.25 per 100.

Leichtlini Major—Rich orange-yellow and white. 2 for 5c.; 15c. per dozen.

Giant Bermuda—A magnificent strain. Flowers very large and freely produced. 2 for 5c.; 20c. per dozen; $1.50 per 100.

Mammoth French—Bulbs of enormous size. The magnitude of bloom which one of these bulbs will give will be perfectly astonishing. For winter blooming they are immense. 5c. each; 3 for 10c.; 12 for 35c.
Allium.

Neapolitanum—Florists find it indispensable, its pearly-white blossoms lasting so long, and its long stems and airy grace fitting it for all cut-flower work. Other people like it because it is so sure to bloom and so daintily pretty. It is hardly out of doors in a sheltered location, but indoors is one of the easiest of all bulbs to grow. Three or four bulbs can be placed in a 4-inch pot. The bulbs and foliage are small, but the stems rise to a height of eighteen inches, bearing beautiful umbels of starry flowers that remain perfect for a month or more.

Price—2 for 5c.; 12 for 15c.; 100 for $1.00. Three each of the above three sorts for 15c.

Scilla Siberica.

Hardy and fine. Blooms at the very edge of winter, and laughs at storm and sleet. Beautiful spikes of deepest blue flowers, freely produced and for a long time. Everyone who possesses a foot of ground ought to grow this. It should always be planted in groups, either in house or open ground. Nothing finer for pots. 2 for 5c; 10c. per doz.; $1.00 per 100.

Triteleia Uniflora.

This is the "Starflower," now becoming so popular for both winter and spring blooming. The pretty starry blooms, each more than an inch across, are borne on stiff stalks well above the recumbent foliage. The flowers are white, tipped and faintly striped lilac-blue, and remarkably sweet-scented. A fine window plant if several bulbs are planted in a pot, as they bloom steadily for two months. Out-of-door they form one of the neatest of all spring edgings, increasing rapidly until they form a matted row that from early spring until early summer, is one mass of starry blooms that are very fine. 2 for 5c; 12 for 15c.

Grown Imperials.

This magnificent bulb of gigantic size breaks ground with the Crocuses, and the strong flower-stems at once attract attention. They grow so rapidly that in a few days they stand three or four feet high, crowned with a tuft of elegant foliage and half a dozen large, bell-shaped, drooping flowers. These blossoms are as large and beautiful as Lilies. A grand bulb for early blooming.

Single Red—Large and early
Single Yellow—Clear and fine
Crown Upon Crown—A double crown of blossoms
Double Red—Rare and fine
Double Yellow—Rare and fine
Snowdrops.

The earliest flower that blooms, and of such hardness that it minds neither sleet nor snow. Exceedingly graceful and pretty, its nodding white flowers touched with green. Snowdrops bloom a few days before the Crocus and Siberian Scilla, but last until these are nearly gone. It is especially fine when planted in clumps and masses to contrast with the deeply blue masses of the Scilla. Much used also for lawns.

Snowdrops are great for beds. As we now, March 30th, sit at our desk with a dainty little bunch of this Snowdrop before us, picked from a large bed of it on the lawn, we can fully realize what a gem it is. The grace and beauty of the large blossoms is enchanting, but we can say of its fragrance, it is rich and so delicate, unlike any other flower, and really second to none. This fine new Snowdrop was introduced recently from the mountains of Smyrna. It is three times as large and fine as the common Snowdrop, and a great acquisition, either for the garden or for pots. For winter blooming it is just superb, its large, snowy flowers appearing in profusion.

Double Giant — A double form of large-flowering Snowdrop.

Anemones.

Very beautiful and brilliant spring flowering bulbs, which should be found in all gardens. They possess a beautiful range of very fine colors, such as brilliant scarlet, red, blue, rose, striped carnation, etc. For pot culture they are very fine indeed. The time has now come for Anemones to be grown extensively, both for winter blooming and for the garden. For either purpose they are magnificent.

Double Mixed — All colors.

Single Mixed — Large blossoms of great beauty and intensity of color.

Cyclamen Giganteum.

Few pot plants are so desirable as Cyclamen, especially for winter blooming. Though they are universal favorites, they are not seen in general cultivation to the extent that they should be, considering their ease of culture, great beauty and long season of bloom. Bulbs commence blooming in the fall and continue in the greatest profusion till June, each flower keeping perfect a month before fading, and a good bulb will show at all times from 12 to 20 well developed blossoms. They are of the most delicately beautiful colors, ranging from dark red to white, delicate blush and pink shades prevailing. Often the flower will be spotted and marked, or in other ways showing two distinct colors. All colors mixed, fine home-grown bulbs, 25c. each; 3 for 60c.

Giant Ranunculus.

Very brilliant and their long, wiry stems fit them admirably for cutting, and for late spring bedding they have few equals, blooming, as they do, so freely, and bridging over the gap between the Tulips and the early garden flowers. For this purpose plant them three or four inches apart and two inches deep, with the claws downward. They bear the most lovely flowers imaginable—pink, white, black, yellow, red, blush and variegated, each about two inches in diameter, and as double and as perfectly imbricated as a Dahlia or Rose. After the foliage turns yellow the bulbs should be lifted and not replaced until late in the fall, or they will spring up before winter. Always choose a sheltered location. For house culture plant five or six bulbs in a inch pot, and treat as Hyacinths. They are charming winter-bloomers.

Mont Blanc—Large and double; pure white.

Fire Ball—Fine double; scarlet.

Apollo Magnificent yellow.

Black Turban—Large, double; black; odd and superb.

Belladonna—Rose, black edge.

Rockolico—Fine spotted, new and fine.

Robinson—Fine pure rose; extra.

Cyclamen—Mixed colors; the 7 for 25c.; 50c. per dozen.

Giant French Mixed—A grand new strain of large flowering habit, and bright colors. Price 2 for 5c.; 12 for 20c.
Ixias.

The Ixias produce their beautiful flowers in spikes, and are of the most dazzling and brilliant colors and forms to attract great attention. It is only a few years that they have been grown in this country to any extent, but in that time, like the Freesia, they have become very popular. For pot culture in the house they give great satisfaction, being of easy culture and free bloomers. Half a dozen bulbs may be planted in a five-inch pot, and the display will be magnificent. For open-ground culture give them winter protection with leaves or straw. They are very cheap, and all lovers of odd and beautiful flowers should certainly add them to their collection.

Mixed Sorts—Our mixed Ixias are particularly fine, and contain more than sixty fine varieties of all colors, shades, markings and variations. 2 for 5c; 12 for 30c.

Sparaxis.

Sparaxis are much like Ixias, except they bear their flowers more drooping than in erect spikes. The blossoms are very large and open flat, presenting some of the most numerous and beautiful combinations of colors to be found. Their exceeding beauty at once captivates all beholders, and it is difficult to find a pot of flowers which will be more generally admired or bloom better than a pot of these fascinating Sparaxis. They require the same treatment as Ixias or Freesias, which is simply to plant several bulbs in a pot of good soil, set them away, and when growth commences bring them out and set in a sunny window.

Mixed, all Colors—More than fifty finest sorts, representing all colors and combinations of fantastic shades; very beautiful. 2 for 5c; 12 for 30c.

Onnithogalum Arabicum.

It is a native of Arabia. Bulb large and solid, closely resembling that of Hyacinth, and requiring exactly the same culture; leaves long and narrow, flower spikes 18 to 24 inches high, strong and graceful, bearing an immense cluster of large, pearly-white flowers, having a jet-black center. The illustration gives a good idea of its great beauty. The individual flowers keep perfect many weeks before fading, so that for more than a month this grand spike of bloom is in full glory. Its durability is almost without equal among flowers. Add to this its delicate aromatic fragrance and we have a winter-bloomer which all must admit stands without a rival. Its culture is the easiest, as it will grow in any position in any window. A bulb can be planted in a four-inch pot, or several in a larger pot or box. Extra large bulbs, 10c. each; 3 for 25c.
Fritillaria Meleagris.

The newer varieties of this charming bulbous plant produce flowers of great and peculiar beauty and they are among the most desirable of all fall bulbs for any purpose. They are superb for flowering in pots during winter, and for early spring blooming in the garden. The large, curiously colored flowers always attract great attention. They are of various colors and shades, but all are regularly and distinctly checkered. 2 for 5c.; 12 for 50c.

Calochortus

The flowers are very large, borne on long stems and are of the most charming butterfly colors, white, yellow, buff, crimson, purple, spotted and shaded in a charming manner. For winter bloom they require only to be potted (4 or 5 in a five-inch pot), and treated like Hyacinth or Crocus. When in bloom they will be a marvel of beauty and last a long time.

Splendid Mixed—All colors and varieties. 2 for 5c.; 12 for 50c.

Erythronium Hartwegii.

This new variety is the finest yet introduced and should be extensively planted for winter blooming as well as for the garden. Perfectly hardy. Flowers very large, light yellow, borne on long, slender stems, each bulb sending up 5 or 6 blooms as shown in cut. Foliage as well as the blossoms is exceedingly handsome and several bulbs will make a most unique and graceful pot of bloom. Fine large bulbs, 5c. each; 3 for 15c.; 12 for 50c.

Camassia Esculenta.

A beautiful bulbous plant with tall spikes of fine blue flowers in late spring. Several can be planted in a pot together for winter blooming, and will make a fine display. In the garden they increase rapidly and soon show great masses of their star-like flowers. Fine to cut for vases or large bouquets. A remarkably fine winter-bloomer often called Celestial Lily. Try a good lot of them, both for pots and the garden. 5c. each; 4 for 10c.; 12 for 25c.

Brodiaea Coccinea.

These are well adapted for winter blooming. The flowers are of various forms, colors and sizes, all exceedingly interesting and beautiful, and of the easiest culture. In the open ground they are hardy with slight protection, but their greatest value is for winter blooming in pots. They are so little known or cultivated that they are exceedingly interesting as pot plants. Their flowers are odd and beautiful. Mixed bulbs of all sorts, 2 for 5c.; 20c. per dozen.

Lily-of-the-Valley.

We offer strong imported pips that have been grown especially for winter blooming. Plant half a dozen in a four-inch pot, keep rather cool until well started, then bring to the light and warmth, and keep freely supplied with water. You will be surprised at the rapidity of growth and the size of their lovely, fragrant bells. 6 for 25c.; 12 for 40c.; 30 for $1.00.

Star of Bethlehem.

A superb bulb for winter blooming in pots, or for the garden. Perfectly hardy, and blooms early in spring, flowers star-shaped, pure white and borne in clusters. For pots it blooms a long time in mid-winter and is very attractive. Try it by all means, both for garden and for pots; it will be sure to please you greatly. 2 for 5c.; 12 for 20c.

Snowflake.

The utility poised blossoms of the Snowflake are exceedingly graceful. The snowy bells are touched at each petal tip with freshest green, a contrast most beautiful. Can be grown in a cool window, in the border, or at the foot of the rockery. Grow about nine inches high. For pots they are good, but do not bloom early. Give them time to develop slowly and they will be superb. 5c. each; 3 for 10c.; 12 for 30c.
New Sweet Scented Calla, Fragrans.

Probably the greatest novelty of last year. It seems to be identical with Childs' Dwarf Everblooming, possessing the additional charm of delicious fragrance. This new Calla was originated by Luther Burbank of California, who speaks of it thus: "The plants are of medium size, compact in growth and bloom profusely. It has not only a most charming flower produced in a profusion never before surpassed, but also with a genuine, sweet, lasting fragrance all its own, but similar to the fragrance of Violets or Lilies." With us it has proved a great success and we have a large stock of it. The description of our Dwarf Everblooming is a correct description of Fragrans also, adding only its additional merit of sweet scent. Sold last year at $1.00 each. Fine plants 25c. each.

New Dwarf Calla, Little Gem.

All that need be said about this sterling novelty is that it is a perfect miniature Calla, growing 8 or 12 inches high, and producing perpetually very large snow-white blossoms. It begins to bloom when only a few inches high in a three or four-inch pot, and a well-established plant in a large pot is never without flowers, summer or winter, and sometimes shows a dozen at once. The greatest plant novelty of late years and yet the sensation of the day. Our stock is TRUE and the largest in the world. Price for everybody.

California Giant Calla.

Large-flowering Callas, which come from California, are now extensively grown and very popular. The bulbs are of large size, start quickly, and are soon in bloom. 25c. each; 3 for 50c.
Fall Catalogue of Bulbs That Bloom for 1900

Galla, Little Gem.
A perfect miniature Galla, growing 8 or 12 inches high, and producing very large snow-white blossoms. It is in truth a perfect little gem. 15c. each. See opposite page.

Childs' Dwarf Everblooming Galla.
This is of a dwarf habit, and does not grow tall and scraggly like the old variety but is strong and compact, with a great abundance of lustrous dark green foliage. It is a true everbloomer, its flowers appearing in great abundance both summer and winter when grown in pots, or it will bloom profusely all summer long in open ground, and being potted in September will continue blooming without intermission all winter. The same plant will grow and bloom for years without once ceasing, and the quantity of bloom which a good plant will produce is astonishing. It is estimated that six plants of the old sort will not produce so many flowers in the course of a year as will one plant of this new dwarf variety. A large plant is hardly ever without one or more flowers, and its dwarf compact habit makes it a much more desirable pot plant than the old variety. Its flowers are of large size and snowy white in color. Price—First size, extra large, 25c. each, 3 for 65c.; second size, 15c. each.

SPECIAL OFFER—One each of the four Gallas offered on this and opposite page for only 60c.
TWO GRAND LILIES.

LILIUM HARRISII and CANDIDUM are the two best of all Lilies for winter blooming in pots and certainly among the most important of all flowers for winter decoration. Recognizing their great importance, we have for several years made special efforts to secure from our growers in Bermuda and France, extra strong bulbs of enormous size especially for pot culture, such as will produce an astonishing amount of extra large and fine blooms. In this we have been very successful and our extra strong bulbs of these two lovely Lilies have become famous for the number and beauty of the blossoms they produce. Our stock is this season finer than ever before, and we offer these special select bulbs with the assurance that they will prove more than satisfactory.

Harrisii, or the Bermuda Easter Lily Large, pure white, trumpet-formed flowers, of great beauty and fragrance, as a winter-bloomer nothing can surpass it. Plant in six to eight-inch pots of good soil and treat like other winter blooming bulbs. It is impossible to describe the charming beauty of this Lily as a pot plant. Extra strong bulbs of enormous size, 50c. each; Small bulbs, 25c. each; 3 for 50c.

SPECIAL OFFER—For 5c. we will send one bulb of each of these two Grand Lilies.

Candidum—This lovely Lily produces from six to thirty lovely waxy-white blossoms, which have the most delicious fragrance of all Lilies. It is one of the most charming winter flowers and sure to bloom freely. Treat same as L. Harrisii. Extra strong bulbs of enormous size, 30c. each; 3 for 75c. Small bulbs, 15c. each.
The Speciosums are the hardest, most robust and free-flowing of all Lilies, not omitting the Old Tiger Lily, while in beauty they are second to none. The magnificence of their blossoms cannot be described.

Rubrum—Deep rose, freely spotted crimson and mottled white; perfectly exquisite. 10c each; 3 for 25c; 7 for 50c.

Melpomene—Words cannot describe the beauty of this variety. Frosted white, spotted, clouded and bearded with pinkish crimson. Petals deeply recurved and widely bordered. 25c each; 3 for 50c; 7 for $1.00.

Praecox—Large, perfect and beautiful. Frosted white, with a tinge of blush at the top of petals. The blush-like fringe in each petal adds to its beauty. 25c each; 3 for 50c.

Monstrosum Album—Broad, flat stems and immense heads of flowers, often fifty in a cluster. Pure snow white. 1c each; 3 for 25c; 7 for 50c.

Monstrosum Roseum—Like the above, except in color, which is a fine bright rose. 30c each.

Henry—New and exceedingly rare. Tall, strong grower, producing flowers in great profusion of a fine apricot-yellow. The yellow Speciosum. $1.00 each.

Opal—We had thought that no Speciosum could exceed Melpomene, but this new Lily is even larger, grander, and, if possible, more richly colored. Like the opal, for which it is named, the eye drinks in its lovely tints with delight. To say that it is frosted, glistening white, delicately clouded and suffused with rosy blush and spotted with rosy scarlet, is to convey but a slight idea of its perfect loveliness. The deeply recurved petals are snowy white at the tip, gradually deepening in color to the base of each petal, which is blotched with a raised, moss-like fringe, which glistens like diamonds. The flower is very large. 50c each; 3 for $1.25.

One each of the above 7 sorts for $2.00.
Ten Beautiful Lilies Cheap.

Our enormous stocks of home grown Lilies enable us to offer the following fine varieties remarkably cheap. It is a great opportunity for a good collection at a small cost.

Cavillina—A well known hardy garden Lily; snow-white, fragrant blossoms; one of the best varieties for forcing and an established favorite.

Elegans—Flowers with mixed colors.

Longiflorum—White trumpet formed, very fragrant. A lovely Lily, being almost exactly like the Bermuda Easter Lily, but blooming a little later, and harder.

Pardalinum—(LEOPARD LILY)—Rich scarlet and yellow flowers, spotted with rich brown. Robust and free flowering. A superb Lily and one which will give the greatest possible satisfaction. Succeeds in all situations. No garden complete without it.

Superbum—Three to six feet high, flowers from five to forty, nodding; brilliant orange-red; blooms in July.

Speciosum Rubrum—(Lancifolium)—Large, wide flowers recurring more or less at the tips. Among the choicest of all Lilies, and perhaps the most robust and the most radiantly beautiful. Very fragrant and hardy. Lovely rose and white spotted crimson.

Tigrinum fl pl. (DOUBLE TIGER LILY)—This is a plant of stately habit, growing from 4 to 5 feet high; foliage is dark green and very long, bearing an immense number of double, bright orange-red flowers, spotted with black.

Tigrinum, Splendens—Improved Tiger Lily.

Umbellatum One of the very best, blooming in June or July, with very large perfect flowers. Colors range from black-red, through all the shades of crimson, rose, yellow, buff, apricot, etc., many being finely spotted and variegated. 25 finest sorts mixed. Per dozen, $1.00.

Wallace—This Lily is very floriferous, each bulb throwing up from 4 to 8 flower stems, each one of which is crowned with 8 to 10 beautiful upright blossoms, of a delicate, bright apricot color. It is very perfect in form and a most desirable sort. 50c. per dozen.

Price, 10c. each; 6 for 50c.; the 10 for $1.00. All home grown.

Rare Lilies.

Aurat um—(THE GOLDEN BANDER LILY OF JAPAN)—We can say that this is the grandest of all Lilies, and certainly the most popular. 20c. each; 5 for $0.50.

Brownii—A grand Lily, but very rare. The large, wax-like flowers are chocolate-purple on the outside, snowy white inside. Stamens a rich chocolate-brown. Blossoms large and trumpet shaped. 50c. each.

Longiflorus Varieatum—The leaves of this variety are most beautifully variegated white and green, making a plant of great beauty. Sold a few years ago at $5.00 each. 0c. each.

Batemanni—Pure apricot color, without spots. A much prized Japanese variety. It is near relative to the rare and beautiful Leichtlini. 30c. each.

Excelsior—This remarkable Lily attains the wonderful height of 5 to 6 feet. It produces from 8 to 12 nodding, rich apricot-lined blooms; has a delightful perfume, and its stately form makes it attract attention wherever grown. You will be delighted with it. Makes a fine pot Lily for winter blooming. 50c. each.

Elegans Flore Pleno—A rare sort, bearing double blossoms of a salmon color, spotted black. It is not only very handsome, but its extreme rarity and novelty makes it a handsome addition to any collection. 20c. each.

Tenuifolium—The lovely Coral Lily of Siberia. A great beauty. The brightest of all Lilies. Grows 20 inches high, with finely cut foliage, slender stems and beautiful shaped flowers of a shining coral-red. One ought to grow them by the dozen, they are so fine for cutting, and make such grand clumps for the lawn. Blooms very early. Having grown an enormous stock of this exquisite Lily we are prepared to offer it at the exceedingly low price of 15c. each; 3 for 50c.; 5 for $1.00; 12 for $1.00.
Seed of Choice Greenhouse and Window Plants.

We offer at special low prices the following list of choice Seed of Greenhouse and Window Plants. Per pkt.

**ASPARAGUS PRUNERI**—Fine foliage. 5

**AZALEA INDICA**—Mixed. 10

**ABUTILON, Choicest Sorts, Mixed.** All colors. Blooms soon after planting. 10

**ACACIA, Choicest Sorts, Mixed.** 5

**BECCONIA, Tuberous-Rooted Hybrids.** Grown for bedding purposes, or for summer conservatory decoration. Blooms very large and showy. 10

**Tuberous-Rooted Hybrids, Double.** Very fine. 10

**Mixed Seed.** Many kinds. Grand for window boxes. 10

**VERNON.** A graceful, free flowering, sombre sort. 5

**COMBINE SELLOWIANA.** Fine flowering, "Wandering Jew." 5

**CALCEOLARIA, Dwarf Hybrids.** Large flowering, mixed colors, 10

**CHIRIBOGIA.** All varieties, mixed. 10

**CYCLAMEN, Grandiflorum.** Choicest mixed colors. 10

**CINERARIA, Dwarf Hybrids.** Large flowering, mixed colors. 10

**Double Extra Choice, Mixed.** 10

**COLCHIUM.** Fancy Extra Choice, Mixed—Variegated colors. 10

**Monthly, or Perpetual Tree.** Mixed greenhouse varieties. 10

**Hardy Hybrids.** Hardy free bloomers. Extra fine for flower beds for pots. Many fine colors mixed. 5

**Margaret.** Fine early bloomers. 5

**COLEUS, Rainbow Leaved.** Extra choice mixed Hybrids. 10

**FERN.** Mixed; many sorts. 10

**FUCHSIA.** Fine mixed, all sorts. 10

**GLARIA.** Choicest mixed Hybrids; magnificent. 10

**ERANINUM.** Zonal Extra Choice—Mixed, from finest new varieties. 10

**Apple Scented.** Very delightfully scented leaves. 5

**Double Mixed.** Saved especially for us from the finest new sorts and will produce some of the best double varieties in existence. 10

**Bronze and Silver Tri-Color.** Fine foliage sorts. 20

**Pelargonium, or Lady Washington.** Fine flowered, Ivy, double flowered, ivy leaved; grand. 10

**HELIOTROPE, Leontine Hybrids.** Flowers soon from seed. 10

**LANTANA.** Fine mixed colors. 10

**LEMON VERBENA.** Everybody knows the Lemon Verbena, and everyone will love the few specimens of it: its fragrant foliage is so fine to use in bouquets and other dural work. 10

**MULBERRY.** Danvers. 10

**PALM, Mixed Sorts.** Many varieties. 10

**PERUVIAN WEEPING.** Very fine and easily grown. 10

**PASSIFLORA.** Fine. 10

**PRIMULA, Chinesis, Mixed.** Very good; from a fine collection. 10

**Fimbriata.** Extra fine; large flowering, fine foliage. 10

**Filibrata Filicifolia.** Fine, (fern-leaved) beautiful foliage. 10

**Filibrata Globosa.** A new strain of Filibrata, with many unusually large flowers of great substance and color; very clear and pleasing. Colors, pure white with large lemon eye; deep red; carmine, white and pink, striped, flaked with other colors. This strain is an extra fine one for pot culture, to many more pleasing than the double varieties. 10

**Fimbriata Ceylonensis.** A new strain of Fimbriata with crisp foliage and producing a great diversity of colors from white to deep crimson. We believe that this new strain of Fimbriata will become very popular on account of its distinct appearance and large blossoms of distinct and bright colors. 10

**Primulas** are among the choicest of all winter plants; they are the admiration of all who see them. All colors, mixed, an extra fine. 10

**Obconica Hybrids.** Strong plants of this are everblooming, flowering for ten or twelve months at a time, without stopping. In bloom in March, above the foliage, white, tinted, lilac, rose-pink, etc. Quite unlike other Primulas, being a distinct species. 10

**SMILAX.** Fine. 10

**VIOLET—Mixed sorts.** 10

**Sage.**

A plant of this new Sage will yield more than a dozen of the common sorts. The leaves are of enormous size and superior quality, and the plant a compact, rank grower, covering a space of more than three feet in diameter, ready flowers and never runs to seed, and can be picked all the season. It is perfectly hardy in the coldest climates. Every person who has used for Sage should plant this variety. Fine plants, 50c. each; 2 for 50c.; 8 for 50c.; 15 for $1.00.
SEEDS FOR WINTER BLOOMING.

We have made extensive experiments with all quick-growing annuals, and to our surprise and delight find that some of them make the most beautiful pots of winter flowers that it is possible to have. Of the following kinds, seeds can be sown in pots of good soil at any time from November 1st to January 1st. They will germinate quickly, grow rapidly and be in bloom in a surprisingly short time, and the pleasure which they will afford it is impossible to anticipate. It is not possible to find any winter flower which will in true beauty and loveliness surpass some of these. They bloom much sooner in pots than they do in the garden and the flowers are larger and handsomer, while the plants are much smaller and more compact. Do not fail to try a few of them. They cost so little and are so lovely.

**Alyssum, Little Gem**—An improved variety: much larger flowers of a pure white, and if possible more floriferous than the old Sweet. Plant is also more robust and spreading, a single plant forming a thick mat of flowers and foliage 12 to 15 inches across. Three and four hundred spikes of flowers in full bloom can be counted on a good specimen plant at one time. Elegant for winter blooming in pots. Per pkt., 10c.

**Cerinthus, Fairy Queen**—A lovely little flower which all should possess. It commences to bloom within a month after the seed is sown, either in the garden or in pots. The flowers are borne in spikes and are very gay and pretty, being of bright crimson and lilac colors. Per pkt., 5c.

**Diamond Flower**—It is one of the loveliest little annuals known, rarely growing over two inches in height, and forms a tuft of beautiful foliage which is completely smothered in a profusion of white and violet blossoms glistening like diamonds. It will be in bloom within a month from the time of sowing the seed at any time of year. For pot culture in winter it is just superb. Sprinkle a few seeds in a small pot or saucer, or in pots where other plants are growing, and within a month you will have a most charming mat of foliage and flowers—covering the surface of the soil like moss. Pkt., 10c.

** Lobelia Coldeise**—A compact, low-growing variety, the foliage of which is golden-yellow and is most charmingly set off by hundreds of blossoms of the brightest, deepest blue, with a pure white eye. Per pkt., 10c.

**Marigold, Legion of Honor**—A dwarf gem, and one of the prettiest pot plants, blooming in a month after the seed starts. Attracts great attention. Per pkt., 3c.

**Morning Glories**—For winter blooming—Seed sown at any time during the winter will commence blooming in about thirty days and when the plants are only three to four inches high, and continue for months. The flowers are very large and of varied and brilliant colors, and remain open all day, from morning until night, making as pretty a pot of flowers as you can imagine. The cut represents a pot of them forty days from the time of sowing the seed. They are in no respect hard to grow and will succeed in any window, and we are sure that no plant or bulb can be purchased for double the price, which will give so much real beauty and enjoyment, and for so long a period during winter, as will a pot of these lovely Morning Glories. Mixed seed of all colors, 10c, per pkt.

**Shoo-Fly Plant**—An important new plant of the Physalis family. It is claimed that flies will not stay in a room where it is growing if they can conveniently escape, though what there is about plants that repels them is not clear, as the leaves or flower has no odor. Aside from this most remarkable quality it is a most beautiful flowering plant, and blooms in a very short time, from seed. It is particularly valuable as a winter bloomer, the blossoms being large, cup-shaped, and of lovely light blue color with a white center. It is a profuse bloomer all winter long, and a more charming plant it will be difficult to find. Pkt., 10c.
Brachycome, or Swan River Daisy—This grows about a foot in height, showing an abundance of beautiful fern-like foliage, and a great quantity of elegant, daisy-like flowers of various colors, blue, white, pink, etc. Pkt., 5c.

Eschschoitia—This is an attractive pot plant both in foliage and flower, and blooms profusely during the winter. The foliage is handsome, being fern-like, while the flowers are like a tulip and nearly as large, and of a most beautiful deep brilliant yellow color. Per pkt., 5c.

Cynoglossum Linifolium—This grows very quickly from seed and is soon in bloom, producing large sprays of elegant white flowers, which are unsurpassed for bouquets and other floral work. Per pkt., 5c.

Phacelia Campanularia—As a pot plant this is one of the most strikingly beautiful that can be had during winter, particularly on account of its rare and lovely color. It grows 12 to 15 inches, producing large cup-shaped blooms which are of a most elegant shade of celestial blue. Per pkt., 10c.

Fenizia Dianthiflora—This is a most beautiful little annual and makes a splendid show in pots. It is of a trailing habit and produces in great profusion large, beautiful pink-like blossoms which are of a light lavender color with dark center. Per pkt., 10c.

Mimulus Cupreus Hybrids—This has proved a wonderful winter bloomer indeed. The plants grow very tall and produce a surprising quantity of large, petunia-like blossoms which are mottled, spotted and blotched in a most fantastic and beautiful manner. Per pkt., 5c.

Nasturtium, Empress of India—While other dwarf Nasturtiums will probably bloom as well as this we think this is most desirable on account of its beautiful dark-colored foliage and its great profusion of large, bright red blossoms. Per pkt., 5c.

Rhodanthe—For charming grace and beauty few flowers can surpass this. It blooms in about forty days from

the time of sowing the seed, and as the flowers are everlasting they never fade, but hang on the plant in great drooping sprays all winter, and the lovely, delicate pink colors are exceedingly attractive. Per pkt., 5c.

Verbesena, Occidentalis—Blossoms very large, richest golden yellow in color, closely resembling a Cosmos, and borne on long graceful stems. Seed sown in pots at any time during winter will be up and blooming within a few weeks, the plants producing their charming flowers when only a few inches in height. For pots it is a most lovely flower. We cannot say too much in praise of this real gem. Everybody will be delighted with it. Pkt., 5c.

Nicotiana Decfurrens—One of the easiest of all plants to grow, and equally fine for winter blooming in pots. Its long, tubular, star-pointed flowers are pure white, exceedingly fragrant and very profusely borne. It is one of the few plants that will flower well without a single ray of direct sunshine, and, for shaded north windows, is invaluable. Per pkt., 10c.

Schizanthus, Mixed Colors—No flower in our conservatories last winter attracted as much attention as did a few pots of this super annual. Plants grow freely and flowers appear in large drooping racemes, and resemble some species of Orchid so closely that they are often taken for that queen of flowers. The colors are beyond description and each flower look like a beautiful butterfly with spreading wings. Our plants were in full perfection of bloom during the entire months of February, March, April, and May, from seed sown the latter part of November. Try them by all means. We offer a mixture of many different colors, all suitable for winter blooming at 10c. per pkt.

SPECIAL OFFER.

For 50c. we will send one pkt. each of the 18 sorts offered on both pages.
**Childs' Grand Pansies.**

For Fall Sowing and Early Spring Blooming.

A universal favorite with young and old. Every child sees the face in the Pansy, and, aside from its great beauty, we all treasure it as the symbol of modest worth and true affection. The smallest yard must have its Pansies. Not poor, forlorn plants, struggling unaided with heat and drought and hard-baked ground, though even there yielding us handfuls of cheeky bloom; but, rather, strong, vigorous plants, rioting in the cool, deep, mellow beds they love, made rich with fertilizers kept free from weeds and shaded from the hot afternoon sun. In such a bed one may gather great velvety Pansies by the hundreds—flowers so radiantly beautiful that they scarcely seem of the earth. Although the Pansy loves coolness, and gives its largest, finest blooms in early spring and late autumns, they are so easy to grow that those living in the South can grow superlative ones by giving rich bed, sheltered location, and abundant water. Sow seed early in house or open ground. In the open ground sow seed very early in spring, while the ground is yet cool and moist, for late autumn and fall bloom, or in August and September for spring and early summer bloom. For fall-sown seed, have the bed moist and kept shaded by boards or papers until the plants appear. These will make vigorous plants that will endure the winter if protected by a few evergreen boughs, or other light covering. Do not let the plants seed.

Our Pansy seed is the very choicest product of Europe, and the various strains and distinct varieties we offer are the best known to cultivation. Per pkt.,

| Large-Flowering, Choice Mixed Colors—A superb strain of choice large-flowering types, including all colors... | 5 |
| Trimarqueau Giant, Mixed Colors—These are famous for their extraordinary size, though their form is not so perfect as the Imperial Germans... | 5 |
| Cassier's Giant Odier—Seed saved only from selected flowers of the very largest size and most beautiful blotches. A very distinct strain... | 5 |
| Bugnot's Superb Mixed—Needs no praise, for it is almost the finest as the best selection of a noted fancy. Flowers extraordinary in size and coloring... | 10 |
| Snow Queen—A perfect beauty, being a pure snow-white, which always comes true from seed. A great bloomer... | 5 |
| Yellow Bird—Very large flowers of a pure bright yellow... | 5 |
| Fire King—Fiery yellow and reddish purple; rich and unique coloring... | 5 |
| Silken Laced—Darker velvety purple, with distinct white edge. Lovely for cutting, and for funereal use... | 5 |
| Black Giant Flowered—A new black Pansy of the largest size; a rich black, very fine and striking... | 5 |
| Cardinal—Deep scarlet, the brightest color in Pansies, and one that comes true from seed... | 5 |
| Peacock—A Pansy of superb and varied color, most of them showing that glorious and luminous bronze-blue seen only in peacock feathers. It is a finely colored strain, and cannot be too highly praised... | 10 |

**Childs’ Imperial German Pansies.**

Introduced by us several years ago, and now the leading favorite throughout the world. Many inferior stocks have been placed on the market under the name, but, as the introducers, we may be depended upon to furnish the true varieties. Large flowers of the finest coloring: stout, robust, bushy growth, withstand the heat and producing fine, large flowers during the entire summer. Over a hundred different shades and combinations of colors...

New Winter Oat.

WINTER TURF.
The greatest of all forage for winter pasture and for heavy crops of grain.

A hardy, robust winter Oat for fall sowing is indeed a novelty worthy the attention of every farmer in the land. It is exceedingly heavy and enormously productive, as many as 150 strong stems having been counted growing from one stool and bearing 6,342 grains, all from one seed. Sow as you would winter wheat or rye, the latter part of August or in September, and it will afford the finest winter pasture which it is possible to have, and yet give an enormous crop of grain, which ripens early, before it can be injured by dry weather. The straw grows to the height of four or five feet, with enormous heads of grain a foot in length. Grain large, plump, and exceedingly heavy. We believe it will yield twice as much to the acre as any other Oat, and that it will supersede all other kinds. Introduced by us a few years ago and has become famous. Price, per pkt., 10c.; lb. 30c.; 3 lbs., 75c., by mail, postpaid; $1.00 per pk.; $3.00 per bu., by express or freight.

New Mammoth Asparagus.

Fall is a good time to set an Asparagus bed, and every garden should have a good one. This new sort of the tender shoots used for cutting are freely produced, and are of enormous size, very tender, rich and delicate. It starts very early in spring and lasts in cutting condition eight weeks. The largest and finest sort. Fine two-year-old roots, 90c. per dozen; $2.50 per 100.

Egyptian Tree Onion.

Egyptian or Perennial Tree Onion—Every garden should have a small bed of them. Perfectly hardy in all the Northern States. In this we have an entirely new variety of Onion. It differs from those raised from seeds or sets, from the top onion, potato onion, or shallot, in the fact that when once set out, without the slightest protection, it will come up year after year as soon as the frosts break ground, and grow so rapidly that it is ready for market or home use two or three weeks before any of them. Is unsurpassed for sweetness or tenderness. Fall is the best time to plant them. Pint, 30c.; qt., 50c., postpaid; peck., by express, $1.50.

Mammoth Sage.

A plant of this new Sage will yield more than a dozen of the common sort. The leaves are of enormous size and superior quality, and the plant a compact, rank grower, covering a space of more than three feet in diameter, rarely flowers and never runs to seed, and can be picked all the season. It is perfectly hardy in the coldest climate. Every person who has use for Sage should plant this variety. Fine plants, 15c. each; 3 for 30c.; 6 for 50c.; 15 for $1.00.
Choice Plants for Winter Blooming.

The following plants are all extra fine for winter blooming, and are mostly new or recently introduced sorts, that are not seen in general cultivation. We supply healthy, well grown, vigorous young stock that will be sure to do finely. All grown especially for winter blooming.

New Everblooming Chrysanthemum.

Pure White, Perfectly Double, Blooms at All Times.

It may be used either as a garden or pot plant, and is perfectly hardy in the open ground. The flowers are of the Chinese type, pure snow white, perfectly double, and produced by the hundreds. No other sort can equal it in profusion. Plants of dwarf habit, 12 to 18 inches high, with bright, healthy foliage and numerous branches, all of which produce bloom. A new Chrysanthemum which may be grown either in the garden or in pots, and which will produce such a crop of fine, double, white flowers at any time of the year, is certainly a great novelty.

W. R. Carroll, of Plainfield, N. J., writes, May 10, to The Mayflower, as follows: “About four weeks ago I ordered three Everbearing Chrysanthemums, Every lover of flowers should add it to his collection. It is simply a wonderful plant. To-day one of them is in full bloom and the others in bud, and none of them over eight inches in height. The readers of The Mayflower would certainly appreciate them could they see them. I trust others may have the same pleasure in seeing them bloom that I have.”

We have grown a fine lot of plants for blooming at once, and during early winter. 25c. each; 3 for 50c.; 7 for $1.00.

Oxalis Ortesii.

Few new plants will give better satisfaction than this, as it is a perpetual bloomer in every sense of the word. It is in full bloom every day in the year, when grown in a pot of good soil and with ordinary care. It grows as freely as a geranium, in any situation. It is a shrubby plant like a Fuchsia, without bulbs, in which respect it differs from other Oxalis. It grows 12 to 18 inches in height, branching freely and loaded at all times with clusters of bright golden star-shaped flowers which do not close at night like other Oxalis. Beautiful as the flowers are, it is still a splendid plant without them, on account of its highly ornamental foliage. The leaves are three lobed, dark olive green above, and a beautiful shining metallic crimson-purple underneath, with wine-colored stems. This makes it a truly novel plant, as well as a very beautiful one, and it is surprising to see what attention it will attract. 25c. each; 3 for 50c.

Azalca Indica.

Elegant pot plants, much used for Easter decorations. Though attaining a good size, commence to bloom when very small. The flowers are large and very beautiful, always much admired, and range from white to deep crimson in color, with all intermediate shades and markings. Easily grown in a window. Our plants are finest new varieties imported last year, and are greatly superior to the older well-known sorts. Many of them are very double, and the colors of all are greatly improved, as well as the flowering qualities.

Dr. D. Moore—Lovely rose, with white and violet reflex. Perfectly exquisite.

Mad. Paul de Schreyer—Elegant, large, double red.

Mad. Vander Cruysen—Lovely rose, with large blotch.

Raphael—Immensely double white.

Deutsche Perie—Large double white.

Ceres—Fine double white, striped crimson. Great bloomer.

Apollo—Deep brick red, semi-double and fine.

C. de W. Anne—Double, rosy pink, flaked white.

Above named sorts 50c. each; 4 for $1.00.

Mixed Azaleas—A very fine collection of more than a dozen of the finest sorts mixed. These will give great satisfaction. 25c. each; 3 for 50c.
Acalypha Sanderi.

(Chenille Plant).

This is one of the most gorgeous and peculiar flowering plants thus far discovered. It grows up a straight, stout branching plant, clothed with large green leaves of good substance, and out of the axil of every leaf grows a spike of blossom, glowing crimson-scarlet in color, 20 to 30 inches long, as large around as one's finger and looks like a long piece of crimson-scarlet chenille cord. They grow on the plant exactly as our cut shows, and on plants a foot high the lower flower spikes will hang below the bottom of the pot, and they continue to lengthen as the plant grows larger. They last for months before fading, and before they fall off several other spikes have started out in the same leaf axil, and it is thus always in bloom—January to December. Even tiny plants in thumb-pots bloom, though of course the spikes are proportionately smaller. This plant was discovered in New Guinea and it did not come from the Philippines as Dewey's favorite flower, as has been sensationally advertised. A magnificent novelty. Strong, healthy plants, 30c. each; 3 for 75c.

New Double Begonia Vernon.

MAGNIFICENT WINTER BLOOMERS.

The well-known single form of B. Vernon has established itself in the affections of all plant lovers. Its cheerful aspect and perpetual-blooming qualities through thick and thin make it a most charming plant. These new Double Vernons from France are in no respect different from the single, except the flowers are larger and double. Truly, they are attractive flowers, borne in large clusters, and with a freedom that is surprising. Every day the year round shows them in their radiant beauty. There is certainly no other plant producing fine double flowers in such quantity the year round as does this. It is adapted to any window or porch, or it may be bedded out in summer. In any position it is always a prize bloomer.

Vernon Double Pink—Fine shade.
Vernon Double White—Pure.
Vernon Double Crimson—Deep and rich

Fine Plants, 25c. each; the 5 for 90c.
**New Abutilons.**

Unlike the ordinary Abutilons of scraggy growth, they are very compact and short jointed, making a neat pot plant. The flowers are the most beautiful, we have seen among Abutilons, being large and beautifully cupped and of the most lovely colors. It is safe to say that these varieties will produce five times as much bloom as others.

**Infanta Eulalia**—This is perfection itself, Plants dwarf and short jointed, producing exquisite large cupped blossoms by the score from the time the plant is four inches high. Blooms all the time, summer and winter. Color a most beautiful soft satin-pink.

**Wm. McKinley**—Like the above except in color, which is a beautiful clear lemon-yellow of exquisite loveliness.

*Price, 25c. each; the two for 50c.*

---

**Verbena Mayflower.**

We can furnish fine plants propagated from the original plant of this great new Verbena. Its great merits are color and fragrance like the trailing Abutilon or Mayflower. The greatest novelty this year. 15c. each; 3 for 50c.; 6 for 90c.

---

**Otaheite Orange.**

An extra fine pot plant with glossy green leaves, the true fragrant orange blossoms, and abundant little bright oranges that hang on the little bush like balls of gold for six months after they are ripe. They will bloom and fruit in a two-inch pot, and we have seen a plant in a common window, that was but 15 inches high and had 23 oranges on it. When good sunlight, they are never out of fruit from one year's end to another, and at least two-thirds of the time are in flower also. The fruit is very sweet and handsome. Could we have but one plant in our window it would be an Otaheite Orange. In beauty, grace and fragrance there is nothing like its delicate leafy sprays of bloom, so indescribably exquisite, dainty, lovely and adorable. Fine plants for blooming and fruiting at once, 20c. each; 3 for 50c.

---

**Begonia, Vernon.**

No other kinds of flowering Begonias can begin to compare with the varieties of B. Vernon for beauty and constant bloom. They are so much superior to others that we have concluded to offer none but these. Plants flower perpetually all the year round, the plants being completely covered with bloom at all times, especially during winter.

**Crimson**—Produce a profusion of dark crimson flowers.

**White**—Splendid large blossoms, pure white.

**Pink**—Lovely blush and pink shades. In other respects exactly like the above, and a plant of perpetual beauty.

**Yellow Leaved**—This new variety of Begonia Vernon has pure white blossoms slightly shaded or bordered with exquisite silky pink, while the foliage is of a charming yellowish color. The flowers are borne perpetually.

**Begonia Erfordia**—A most lovely sort, and a great bloomer the year round either in pots or garden. It has large clusters of light pink blossoms, resembling large Tuberous-rooted varieties. It is a free grower and a superb sort.

*Price, 15c. each; the 6 for 90c.; or $1.00 per dozen.*
Eclipse.

This is really one of the best of all pot plants. It will be hard in fact to find many which are fully as desirable in every respect. In the first place it is always in bloom. Every day in the year its fine light orange colored, bell-shaped blossoms can be seen. Add to this its lovely light green leaves, which are thickly spotted with yellow, making it one of the most beautiful foliage plants you ever saw, and its graceful, weeping habit, it makes a plant of peculiar value. For hanging baskets, pots or vases it is superb, while in the garden, it is one of the best and most attractive blooming and foliage plants that can be had. It is easily propagated, and large beds of it make a splendid show. Here it has proved to be one of the most attractive plants of recent introduction. Plant our Leopard Strain of Abutilon Eclipse, and you will have a lovely plant which will be in bloom every day in the year. The plants we send out are already budded or blooming. 25c each; 3 for 50c.

Trailing Grassula.

No trailing plant can be more lovely than this beautiful succulent. Leaves thick and heavy, closely placed about the stems, which are long and droop and curve beautifully. It is not only beautiful, but exceedingly odd; quite impossible to properly describe it. We have been years working up a stock of this plant that we might offer it. 25c each; 3 for 50c.

Euphorbia Candelabra.

A leafless plant and one that is very rare and odd. It is a rapid grower attaining in time the height of several feet, and branching freely like a tree, its leafless stems making an odd and curious plant. It is highly prized by people who are fond of such oddities among plants. Anyone who loves Cacti will be delighted with this plant. It grows as freely as a Geranium. 15c each.

Sedum Aureum.

(Golden Stonecrop).

A particularly dainty little plant, with round, fleshy leaves and stems of a bright amber or gold color. Fine for baskets or for summer edging, making a splendid bedding plant. Easily propagated and a quantity will be always useful. 15c each.
Swainsonia, or Swanflower.

It will be hard to name a plant now in cultivation which can equal this in beauty and general good qualities. It has a most beautiful fern-like foliage and blooms perpetually every day in the year, its blossoms being the shape and nearly the size of Sweet Peas, and borne in great clusters of twenty to forty. These clusters appear at the axils of the leaves, and a single branch shows many clusters of bloom at all times. The plant is a free and rapid grower, beginning to bloom in three or four weeks from cuttings, and continuing for years. It is easy to grow and manage as a Geranium, thriving in any soil and in any window, and is a superb bedding plant for the garden in summer. We believe there is no plant so easy to grow, or one that thrives and blooms under all conditions as does this charming plant.

Pure White—Large milky white; exquisite.
Deep Red—Fine dark red, with large white blotches.

Price, 5c. each; two for 30c.

New Lantanas.

Lantanas are free flowering and brilliant colored. They make most excellent pot plants for fall, winter and spring, and are fine for bedding out in summer. The new Weeping Lantana is a splendid plant for pots and baskets, and is a great bloomer.

Weeping—This new trailing plant is a real beauty and highly desirable for basket pots and hanging baskets. The slender trailing growth, and abundance of rich blossoms making it a plant of peculiar beauty. Color, a fine line, and sweetly scented. Very graceful and a plant easily grown in any situation. One of the best novelties in years.

Scarlet Fiery—A new Lantana of unusual beauty, being of dwarf, compact growth, and a profuse and perpetual bloomer. Its flowers, which appear at all times of the year in great numbers, when they first open are golden yellow, changing the next day to deep, fiery scarlet. This unique habit causes each cluster of flowers to show to most beautiful advantage, as the center flowers, which recently opened, are yellow, and those which surround the center deep scarlet. Valuable alike for pots, for blooming at all times of the year, or for bedding out.

Yellow Firefly—A seedling of the above with golden-yellow blossoms. Large and fine.

Price, 5c. each; the 5 for 30c.

Lantana Seed—Mixed colors. Seedlings make blooming plants in a few months. Pkt., 10c.
These Geraniums are in their way most remarkable Novelties, for they show great improvement over sorts previously introduced, in habit, vigor, size and quality of bloom and in radiant coloring. For three years they have been the admiration of all who have visited our conservatories. They are now offered for the first time, after three years of critical test and we know just what they are. They have been carefully compared with the best new sorts of recent years, and in every point they show their superiority. Habit compact, with large healthy foliage. Flowers perfect in shape, round and sometimes beautifully cupped. Trusses immense and the blooming qualities of the plant truly wonderful. But in color they are perfect marvels, showing combinations and brightness of tints hitherto unknown. The spotted or speckled varieties are very novel and extremely attractive. Such worthy novelties and so many of them, we think, should bear the names of different States, and we have named them accordingly, as others yet to come will be named.

**Maine**—Pure white, slightly tinted pink. Large flower and magnificent truss.

**Georgia**—Delicate sea-shell pink. Extra fine and large.

**Virginia**—Large, extra fine, salmon-pink. A rare and beautiful shade.

**Massachusetts**—Extraordinary size and beautifully colored. Exquisite pure pink with white rayed center, freely spotted or speckled.

**Indiana**—Pale lilac pink, slightly spotted. Large size and beautiful form.

**California**—Salmon-pink, white center; beautifully rayed and clouded.

**Iowa**—Mammoth size; shape round and perfect; velvety crimson-scarlet. Very rich.

**Illinois**—Soft pink, white center, thickly spotted deep crimson. Distinct and very beautiful.

**Pennsylvania**—Pure snow white; best of its color.

**Ohio**—Flower like a Pelargonium. Deep blood scarlet, veined black; upper petals rayed intense orange-scarlet. Largest known size.

**Kansas**—Intense orange-scarlet, each petal beautifully veined with a darker color.

**New York**—Enormous clusters of great substance; beautiful round flowers. Soft pink; perfectly exquisite.

**Price, 25c. each; any 5 for 60c.; the 12 for $2.00.**

**GERANIUM SEED.**

**New Hybrid Large-Flowering.**

This is of our own raising and is saved from such grand sorts as those offered above. It will produce magnificent varieties, probably many as good as those here named. It is the finest Geranium seed ever offered. Plants from seed bloom in a few months. Pkt., 30c.; 3 pkts., 50c.
Primula Obconica Hybrids.

A new plant of extraordinary value for winter blooming.

These are new flowering Obconicas of various colors, as large and fine as Primula Sinensis. The old white fimbriated variety is well known, but these new colors and larger flowers are among the very best novelties this year. Colors, pink, violet, blush, rose, lilac, white, etc. Very charming flowers, being borne in large trusses, and at all times of the year in great profusion. As show pot plants they have no superior, the clusters of blooms remaining perfect for months, and the plants so hardy and robust that they will grow in any window and under any conditions, blooming profusely all the time. Sure to delight everyone.

Plants—Fine plants for blooming at once, 30c. each; 3 for 50c.

Seeds—All colors, mixed 10c. per pkt. Seedlings bloom in a few months.

Cryptomeria Japonica.

A most dainty and handsome plant that has all the grace and beauty of Aucacia Excelsa (for which it is often mistaken), but which has the happy faculty of successfully withstanding the trying atmosphere of living rooms. It is of vigorous growth and can be grown much more economically than Aucacia. The plants offered by us, if given ordinary good care and attention, should excel Polews in decorative beauty. As far north as Philadelphia the Cryptomeria is hardy outdoors, where it makes a most beautiful shrub for lawn planting and will ultimately attain great size. A grand new decorative plant of great value. 30c. each.

Streptocarpus, Grandiflora Hybrids.

We do not know a pot plant more desirable for window culture. Plants from seed will begin blooming in a few months, and continue for YEARS without once stopping. Leaves long and narrow, radiating from the crown of the plant, close to the soil. From the same spot spring the flower stems, shooting up to the height of 8 to 10 inches, each one bearing a large trumpet-shaped flower of exceptional beauty, some pure white, blue or purple, but mostly finely marked in a charming manner with harmonious colors. A plant will show several of these exquisite flowers all at once. Seed, 30c. per pkt. Fine plants, 35c. each; 5 for $1.00.
Improved Rainbow Canna.
This is the most magnificent novelty among foliage plants. Each leaf is beautifully variegated with pink, scarlet, orange, grey, green, etc. The foliage keeps its color all through the season; either for open ground or pots: In kind of growth it is superb. It hardly reaches the height of 3 feet, and is compact, with numerous leaves, which are wide, wavy and graceful. In this respect more charming than any other Canna. Aside from its beauty and usefulness as a garden ornament it is still grander in pots for the window or porch, and makes a specimen plant which nothing, not even Fancy Caladiums, can surpass. 25c. each; 3 for 60c.

Dwarf Winter-Blooming Canna, Star '91.
A very Dwarf Canna which will show bloom every day in the year, its flowers being borne in great compact panicles, often as large as a man's hat, and of the most intense fire scarlet color rayed and bordered with pure gold.
As a pot plant for blooming, both summer and winter, this Canna is a novelty of immense importance. It has already become recognized as the most valuable and important flowering plant among those who know it. It is utterly impossible to have a plant which is more easily grown or more effective in bloom. The enormous panicles of flowers which are borne continually even on plants only a foot or two in height and in small pots is indeed marvelous, and the intense color of the blossoms makes such plants objects of the most effective beauty. Fine plants for immediate blooming. 25c. each; 3 for 60c.

Genista or Shower of Gold.
One of the Finest Pot Plants for Winter.
As a plant for late winter and early spring blooming (especially for Easter), it is almost without an equal. Flowers golden yellow, very fragrant, and borne in large, drooping racemes, and in such quantity as to almost hide leaf and branch—most truly a "Shower of Gold." It is one of the easiest plants to grow we ever saw, and it is absolutely sure to bloom profusely in any window. As a plant for rare beauty, delightful fragrance and ease of culture it has no superior, and should adorn every room. Splendid plants that will bloom finely this winter, 25c. each; 3 for 50c. Seed, 10c. per pkt.

Grand New Coleus.
Velvet-like leaves of wonderful richness and beauty.
Dr. Rehder—Enormous leaves like a Rex Begonia, but more exquisitely colored, being a blending of yellow, crimson, pink, green, chocolate, etc. A grand specimen plant.
Mrs. Saunders—A wedding of creamy white in the center of the leaf, with a clearly defined margin of olive green, bronze, crimson, and purple. Perfectly fascinating.
Admiral Dewey—One of our new Giant-Leaved, and the finest Coleus yet known for bedding or for a fine specimen pot plant. Leaves large, finely toothed, dark maroon, flamed and variegated crimson-pink, blotted yellow and bordered green. Underside, green and yellow, finely variegated.
10c., each; the 3 for 30c.
Splendid Winter Blooming Roses.

(EXTRA FINE AND STRONG PLANTS).

The following are probably the three finest and surest winter-blooming Roses.

Champion of the World—The Rose for everybody, one of the best and freest bloomers for winter. It commences to bloom as soon as potted from the propagating bench, and continues in the greatest profusion all the time, both SUMMER and WINTER. It is always in full bloom, and is the most healthy and vigorous Rose in cultivation. Its handsome rank foliage has never been known to mildew under any conditions. It has the most delicious and powerful rose fragrance, which is maintained during the whole year. Its perfume in December is as rich, delicate and sweet as it is in June. Its blossoms are perfectly double to the center and of the most perfect shape, both in bud and blossoms, while its color is a degree of loneliness which few roses can equal, being a rich, deep, rosy pink, darker and richer than Hermosa, and a shade the delicate richness of which is seldom seen. Its size is very large for an ever-bloomer, often as large and fine as La France, or the best hybrid perpetuals. We supply strong, well-rooted plants for winter-blooming.

Childs' Jewel—Produces flowers which range in color from dark orange-yellow to crimson, variegated, bledged, mottled, etc. A plant in bloom shows no two flowers alike. Some will be dark yellow; others, buff, saffron, light and dark crimson, pink, blush, apricot, etc., while others will be variegated in a most beautiful manner.

Climbing Meteor—Buds exquisite; flowers large, beautifully shaped and of that rich, dark, velvety crimson color seen only in the Jacqueminot. For winter-blooming it is just the Rose to train upon a conservatory or bay window.

Climbing Bride—Like Climbing Meteor, but pure white very large, double, perfect and fragrant.

Highland Mary—A sport from Agrippina, which originated in Canada, and, like that fine old variety, is a persistent bloomer both summer and winter, with a stronger and better growth; flowers double the size and exceedingly sweet. As to color, it is without exception the most exquisitely and delicately colored Rose we ever saw. Bloomers beautifully cupped, each petal being white with a delicate lemon tinge; just enough to make it perfectly exquisite. But this is not all; each petal is also bordered with a delicate band of pink, which, blending into the white and lemon tinge, makes a combination which is purely fascinating. It will bloom through the year and is a winter-blooming Rose. Its fragrance is so powerful it can be used in greenhouses and conservatories. It is one of the most perfect winter bloomers in the world.

PRICE—50c. each; any 5 for 50c.; the 6 including Winter Gem for only $1.00.
Rose Winter Gem

The greatest pot bloomer of all fine roses.

This is the greatest Rose Novelty in years, owing both to its beauty and its unparalleled blooming qualities. It is a Tea Rose of remarkably strong and vigorous growth and a prodigious bloomer all the year. It flowers all the time, particularly during winter, and bears its name. The blossoms are borne on long, graceful stems, are of large size and a lovely crimson-pink color. Buds perfectly exquisite and the open flower full and double. It is the strongest, hardiest, most vigorous and rapid growing Tea Rose in cultivation. One plant of it will produce more good Roses in the year than 12 plants of any other Tea Rose grown. This is saying a good deal, but it is true. The plant will bloom continually, and nothing but killing it outright will check it. The blossoms are singularly beautiful in shape, color and poise, and most deliciously scented—more fragrant than any other Tea Rose. It is so strong and vigorous that it never mildews, and is a rapid grower blooming at once from small cuttings. The greatest Rose for amateurs, and one that will positively bloom prodigiously in any window at all times of year. Strong, well established plants, grown especially for winter blooming, and ready to bloom at once. 30c. each, 2 for 50c.; 5 for $1.00.
Choice Window Vines.

Nothing is better for winter as window plants than the choice flowering Vines here offered. They will all do well, the plants being now large and strong.

**Childsia Werckleii, or Treasure Vine**—New, and a beautiful climbing composite, suitable for cool, shady windows or verandas. While it will grow to the height of 10 feet, it blooms profusely when very small. Its flowers being like a Clematis in shape, but intense scarlet in color, which, added to its foliage and natural grace of growth, makes one of the most elegant flowering plants ever seen. It is a quick, robust grower and so hardy and vigorous that it will stand any amount of abuse. Specimens which we sent to the Royal Botanic Gardens at Kew attracted great attention and it has been decided to call it *Treasure Vine* on account of its great value; scientifically, *Childsia Werckleii*. It is a fine winter bloomer. 25¢ each; 3 for 60c.

**Fuchsia Trailing Queen**—This new Fuchsia never grows erect, but always trails down over side of the pot, and is the most beautiful of all Vines for suspension. A well-grown plant is a weeping fountain of waxen scarlet and violet-purple bells, and it remains in this condition for months at a time. Very robust and easy to grow, the branches reaching a length of four and five feet, blooming and growing nearly the whole year. The leaves are dark green, ribbed and ruffled with red or crimson, which makes them luminous and handsome. Flowers and buds long and graceful, borne in large clusters at the end of the vines. When expanded the flowers are very large in size, tube and sepals bright rose scarlet, while the corolla at opening is a rich violet-purple, changing the second day to a fine shade of crimson, the two colors in the same cluster contrasting beautifully. A good specimen will show hundreds of flowers at once, and the effect when suspended in a window is truly glorious. 25¢ each; 3 for 50¢.

**Smilax**—The dainty yet luxuriant masses of the glossy Smilax are as handsome in the window as any other flower, and as the plant is easy to grow anyone can possess it. A beautiful climber for the arch of a portico, wreathing it in a bowler of the loveliest green. The finest foliage we have for bouquets, cut-flower work, etc., as it is so beautiful and spray-like, and lasts for hours without wilting. Flowers white, fleshy, profuse and fragrant. 15¢ each; 3 for 30¢.

**Manettia Vine**—In the house it can be trained all around a window, and it will be a solid wreath of bloom, both summer and winter; in the open ground during summer it will grow ten feet, branching freely and covering a large space of trellis, arbor or wall, blooming at all times thousands of its bright blossoms. The flowers are 1½ to 2 inches long, and of the most intense fiery scarlet, shading off to a bright yellow tip. They are also covered with a scarlet moss or hairy substance, which adds much to their beauty, and each flower keeps perfect for weeks before falling. No plant is easier to grow, and it commences to bloom at once from the smallest cuttings, and continues to bloom most profusely at all times. There is not a day during its life that it is without flowers, if it has any sort of decent care. 15¢ each; 3 for 30¢; 6 for 50¢.

**Passiflora Pfordti**—The best for pot culture, as it blooms when but a foot high; large, handsome, fringed flowers, exhibiting a mingling of white, pink, brown and blue in its coloring, making a flower of the most fascinating beauty. 15¢ each; 3 for 30¢.

**Passiflora Constance Elliott**—One of the most graceful of all vines, with a place in every home for its exquisite foliage. The shields, being entire, five-fingered leaves, attractively fringing the slender stems, after the snows of winter begin to fall. Flowers pure white. 15¢ each; 3 for 30¢.

**SPECIAL OFFER.**

One each of the six Glorious Flowering Vines for only 80¢.
FINE FOLIAGE PLANTS.

The following superior foliage plants are well adapted to window culture during winter and are highly desirable for that purpose:

FILIFERA, OR WEEEPING PALM.
One of the best window Palms, needing no potting to succeed. Stands dust and dry air, and looks of sunshine, and is very ornamental with its elegant fan-shaped leaves, of a rich, dark, leathery green. Pictured singly fringed with long thread-like filaments along the segments of the leaves. The plant is a compact grower, well adapted to pot culture, succeeding in any situation, and with any treatment that will keep a Geranium alive. It will make a grand ornament during winter, and in summer it can adorn a veranda or be placed about the garden or yard, or used for a center in a vase, basket or flower bed—always ornamental anywhere. Strong plants, 20c. each; 3 for 50c.; 7 for $1.00. Fresh seed, which will grow rapidly, 15c. pkt.

BOSTON FERN.
Of all decorative plants for house culture this is perhaps the most imposing and satisfactory. It is so hardy that it will stand and thrive in most any situation in a room, even if out of the reach of the sun's rays. No Fern is so good in this respect. Plants form an immense number of graceful drooping fronds, varying in length from two to five feet, and always of a fresh, healthy, and beautiful green color. These fronds keep in perfect condition for years. We cannot too highly recommend it. Fine plants, 20c. each; 3 for 50c.

ASPARAUCUS, SPRENGERI.
For hanging pots, or bracket pots, where the mass of rich foliage can droop in its natural grace, it is one of the loveliest objects it is possible to find for window decoration. For cutting it lasts weeks in water. Plants also blossom freely and bear large red berries, which add greatly to the beauty of the wavy foliage. Nothing finer for decorating or for bouquet making. Fine plants, 20c. each; 3 for 50c.

SANSEVERIA ZEALANICA.
Singlarly beautiful and easily grown. Erect, rigid, sword-like leaves; in some old specimens reaching a foot or from four to six feet. The leaves are thick and fleshy, a dark green color, with clouded bars of white. In May and June it sends up long plump flower spikes. The splendid outlines of the plant, together with its distinctive marbling, make it a superb plant for jardiniere, centers of vases, etc. 20c. each.

PARROT'S FEATHER.
Long trailing stems completely clothed with whorls of the most exquisite foliage, finely cut. If planted in a water-tight hanging basket so the soil can be kept very wet, or water standing on the surface, it will trail down over the side in a most charming manner. 15c. each; 3 for 50c.

NEPETA CLEGHOMA.
This new Nepeta is hardy, fragrant and its leaves finely marked with white. Very fine for hanging basket, standing any abuse. One of the prettiest things in the world with which to carpet graves, as it roots wherever it touches the ground and forms an impenetrable net-work of vines through which weeds and grasses cannot creep. It will grow in any kind of soil, in sun or shade, hot or cold location, and is ever a mass of green and white refreshing to the eye. Unsurpassed for vases, hanging pots or baskets. 15c. each; 3 for 50c.

One each of these 6 Fine Foliage Plants for 50c.
The earth wears a crown of Floral Beauties, and among the brightest, richest and sweetest are the Hardy Perennials. They have a place in our gardens, and in our hearts, which nothing else can supply.

The list of Hardy Perennials here presented we have collected together with great care, having in view one special object, viz.: to supply the best varieties and best plants at a small cost. We feel sure that we have succeeded, and that our customers will not let this season pass without adding many of these treasures to their borders. They are all perfectly hardy anywhere, and thrive and bloom year after year with little or no care after once well planted.

New Perennial Phloxes.

Those who remember the thin-petaled white and the dull-blue purple Perennial Phlox of old-fashioned gardens can scarcely recognize these new Phloxes as the same flowers. These new varieties are in bloom from June until frost, and the individual florets are twice the size of the old time Phlox, and the shades of color the brightest, richest and clearest. There are no finer or more useful perennials than the Perennial Phloxes, or which will give more complete satisfaction. The varieties we offer are new and fine, and the plants we send out will bloom magnificently the coming summer. They are cheap and we hope that all our customers will plant them.

Atheia—A beautiful clear scarlet tinged with salmon. Very bright and showy.

Snow Cloud—White, suffused with purple. Extra fine.

Charlotte Saisson—White, suffused with pink, deepening towards the center to bright vermilion.

Lagolia—Enormous flowers and trusses, individual flowers being 1½ inches across. Color, light crimson tinged with lilac and shaded lighter towards the center.

Diplomat—Beautiful lilac with crimson eye. Very large flower and truss.

Master Clarence Hulse—Pure white. Flowers and trusses of very large size and exceedingly beautiful.

Sylvester Hulse—Beautiful lilac-rose.

Miss Hattie Hulse—Pure white with beautiful pink eye.

Morty Hulse—Beautiful rose-lilac, marbled with white, flowers large and of beautiful form.

Mad. Recalder—Pure white, bordered and flaked white.

Pyramidal White—A great acquisition, being a plant of sturdy, compact growth, and bearing enormous pyramidal panicles of great blossoms. By far the finest white, and in all round good points the finest Perennial Phlox known. Great solid panicles of grand effect.

Pyramidal Crimson—Like the above, with same great blossoms, but of a bright crimson color. The two sorts contrast finely. They bloom all summer long and are equal to Hydrangeas in majestic beauty.

Price of above two, 25c. each; the two for 50c.
Henecrocallis.

Hardy, robust plants, producing great quantities of magnificent, large, fragrant, Lily-like blossoms all summer.

*Flava*—If everyone does not know the *Lemon Lily* they ought to, for it comprises in one plant entire hardiness, profusion and beautiful and fragrant bloom. Last summer we counted 988 buds and tall blown blooms on a medium-sized specimen at one time. The clear yellow, Lily-like flowers are borne on long, stiff stalks, making them superior flowers for large vases or for pulpit bouquets. There is no yellow Lily so beautiful as this.

*Dumortieri*—Profuse, orange-yellow, bright, rich, and showy.

Kowiensi fl. p.—Large double blossoms on tall stems.

Price, 20c. each; $1.25 per dozen; the 3 for 50c.

Day Lily Variegated.

Leaves as handsome as a flower. A rosette-cluster of almost white leaves lightly striped with green and yellow. Flowers pretty pale lilac-blue on tall spikes. Fine also for pots. Altogether, this is one of the finest (certainly one of the most attractive and ornamental) of all hardy plants.

Nothing more ornamental. 15c. each: 5 for 60c.

Peonies.

The favorite of today, as it was fifty years ago. Luxurious foliaged plants, with magnificent, double, incurved flowers of enormous size and rich colorings. Nothing can surpass the intensity of the dark varieties that fairly glow with a radiant fire of richness, while the white and pale varieties are very soft and delicate in their coloring.

New Giant—Like an enormous double Rose, of a blush, almost white color; a Paeony which grows 3 to 4 feet high, and bears flowers nearly as large as a man’s hat, which resembles a perfect Rose. In fact, the flower is the same shape, fragrance, and exquisite satin-like pink color as Baroness Rothschild Rose. It is beautiful beyond description. Fine roots, 40c, each: 3 for $1.00.

Victor Lemolne—Large size and great fragrance—deep crimson.

Fragrans—Bright pink, double and very sweet, 35c.

Double White—Pure white, very scarce, 40c, each.

Tenuifolium—Fine cut, fern-like foliage, of exquisite beauty, and blossoms in May. Rich, fiery scarlet, 30c, each.

Humulis Single—Large, purple-rose; very early. 35c, each.

Mixed Peonies—Ten sorts. $1.25 per dozen.
Double Iris Kämpferi.

These new Iris from Japan rival the Lily in stateliness, the Peony in majestic beauty, the Orchid in marvelous delicacy and blending of colors, the Chrysanthemum in profusion, and surpass almost every plant in the size and kindling majesty of its flowers. Think of a plant sending up to the height of three feet a dozen flower spikes, each spike surmounted from two to four enormous blossoms eight or ten inches across and of the most delicate and beautiful colors—marking and combinations. Think of a bed of all colors, white, indigo, violet, lavender, maroon, sky-blue, royal purple, black, yellow, etc. Your imagination can conceive of nothing grander, and when you see them you will realize that they are infinitely more grand and beautiful than your imagination could portray. Such are these new Double Iris Kämpferi, the king of Hardy perennial plants. Once planted in your garden they are a joy for a lifetime without further care, blooming profusely in June and July, during which time they are the greatest attraction your garden or lawn can obtain. These Iris received highest award at the World's Fair.

Blue Jay—Dwarf habit, large flowers, fine azure blue freely veined and mottled white.

Eclair—Lovely pure white. Extra large and fine.

Nanogany—Very large flower, deep mahogany red.

Cold Bound—Tall and showy, with flowers of enormous size, probably the most beautiful of all. Pure snow-white, with large gold-banded center.

Blue Danube—Extra fine luminous blue, with peacock’s eye and yellow eye. Very large and showy.

Zenobla—Rich purple, mottled with grey.

Mt. Hood—Light blue, shaded darker, bright orange center.

Pyramid—Tall and showy, flower very large; light violet-blue with slight white veins.

P. C. c. Rohan—Purplish blue, shaded violet, with red at center. Fine large flower.

Robert Craig—Tall and very large; French white, shaded with violet toward center; extra fine.

Price 75c. each; any 6 for 50c.; the 10 for $1.00; or $1.00 per dozen.

Double Mixed—40 Fine sorts, 7 for 50c.; 15 for $1.00.

Single Mixed—30 kinds, 7 for 50c.; 15 for $1.00.

SINGLE VARIETIES.

Como—Reddish amaranth, with large white center.

Shadow—Enormous, wavy petals, dark indigo blue with peacock luster and golden center. Grand.

Snowbound—Large, pure white, with golden bands.

Souvenir—Lovely rose pink, with satia gloss and delicate blue veins.

Violet Cup—Pure white, veined and suffused dark blue.

Quakeress—Light lavender, tinged rose.

Price. 75c. each; the 6 for 60c.; or $1.00 per dozen.

Beautiful German Iris.

Another good old flower, as hand-some as an Orchid, now to be found in many new colors. A striking flower of crepe-like texture and most exquisite coloring, the gauzy veining reminding one of the delicate tracing of the butterfly’s wing. We grow acres of Iris, and know you can find no finer list of varieties than the one here presented. They bloom in May and June, when there is a dearth of really fine flowers, and are out of bloom before Iris Kämpferi commences.

Fine Mixed Sorts—A lovely collection. 6 for 40c.; 12 for 75c.

Named Sorts—A collection of 10 sorts, named, for $1.00.
**Gardy tuft, Hardy.**

A plant of exquisite beauty, being of low, compact, spreading growth, and producing its profusion of bloom in May or June, when pure white flowers are particularly scarce. Its profusion of bloom is so great that a bed of it looks, at a little distance, like a mass of fleecy snow just fallen. Few hardy plants will give as much real satisfaction as will this beautiful azem. Lifted late in the fall, it will bloom well in the house during winter. Perfectly hardy and foliage green. 1c. each; 5 for 50c.

**Arundo Donax Variegata.**

Surpass any Canna as an ornamental foliage plant. Produces white, luxurious leaves, which are freely striped and variegated with pure white. Makes a most striking object and fine for the center of beds. Very hardy. 3c. each; 3 for 50c.; 7 for $1.00.

**Anthurium liliasticum.**

A hardy perennial plant of the highest quality. Its equal is found only among some of the rare and high priced Lilies. Each plant sends up many tall flower stems, each bearing a quantity of very large, pure white flowers, surpassing the White Day Lily in size and beauty. Quite as pretty, in fact, as the Bermuda Easter Lily. Will attract great attention and is unsurpassed for cutting. A grand good thing, perfectly hardy anywhere. Strong roots, 3c. each; 3 for 50c. Seeds (will bloom second summer), 10c. per pkt.

**Achillea Grandiflora.**

A most useful and beautiful hardy perennial plant which furnishes a profusion of the choicest double, white flowers all summer. It commences to bloom by the first of July and is a perfect mass of bloom until frost, as many as 5,000 flowers having been counted on one plant at one time. Flowers pure white, perfectly double, and are produced in large sprays, and are unsurpassed for all sorts of cut-flower work, bouquets, etc. It is perfectly hardy anywhere, and so vigorous that it will take care of itself among weeds. For cemetery planting there is nothing finer, for it is sure to live, thrive and bloom profusely year after year. The plants we sent out will bloom profusely next summer. 1c. each; 6 for 50c.

**Mosquito Catcher Plant.**

This pretty plant, Vincetoxicum, comes from Japan. It grows one to two feet high and all summer bears a profusion of pretty, white, star-like blossoms that secretes a viscid fluid that attracts mosquitoes and sometimes other insects as well. Alas for the poor mosquito! No struggling on his part can ever free him after he has once dipped his head in the forbidden sweets, though he may tug and plunge and buzz for a day or two after. A single spray of bloom will capture a dozen mosquitoes. 15c. each; 5 for 50c.

**Anemone, Whirlwind.**

A variety of the beautiful old A. Japonica, but with large, semi-double blossoms of a snow-white color. It possesses a beauty and airy grace which is seen in but few flowers, and its great profusion of bloom at the end of summer and during fall, when pure white flowers are scarce, makes it very valuable—in fact one of the finest novelties of the year. 1c. each; 5 for 50c.

**Heuchera Sanguinea.**

This rare and little known plant will be a revelation of beauty to all who try it. It is of very pretty, graceful habit, sending up great numbers of flower stems, which branch freely and produce for a period of two or three months a great profusion of scarlet blossoms. Nothing finer for vases or decorating. Perfectly hardy. 15c. each; 4 for 50c.
Rudbeckia
Laciniata fl. pl.,
"Golden Glow."

A hardy perennial plant growing eight feet high, branching freely, and bearing by the hundreds, on long, graceful stems, exquisite double blossoms of the brightest golden color and as large as Cactus Dahlias. The cut represents a plant in bloom, as photographed. Mr. William Falconer, the best authority on plants in this country, says of it: “When I saw the double-flowering form of Rudbeckia Laciniata in bloom in your grounds at Floral Park, I was amazed, for I had never before seen a double-flowered Rudbeckia; and I was delighted with the fullness and gorgeousness of the blossoms and their clear, bright yellow color. The plant you gave me grew vigorously and threw up strong branching flower stems, six feet high, laden with sheaves of golden blossoms as large as fair Chrysanthemums, and all having an elegant, graceful appearance, without any of the stiffness in habit or blossoms peculiar to sun flowers. Many eminent florists and amateurs have seen it here and all admired it. As cut flowers the blossoms last well. In fine, I unhesitatingly regard it as the most desirable introduction among hardy perennials, since we got Clematis Paniculata.”

It is the most effective flowering plant for August and September in cultivation.

Strong plants, which will bloom freely this season, 15c. each; 5 for 50c.; 12 for $1.00.

New Single Rudbeckia,
"GOLDEN TREASURE."

Offered last spring for the first. Not so tall as Golden Glow, but equally handsome. Flowers of larger size, fine form, and borne on long, graceful stems. Color, brightest gold; the most aesthetic garden flower yet seen. Do not despise it because it is single. It is fully as handsome and effective as Golden Glow, but entirely different. We predict for it as great a popularity as the wonderful Golden Glow, which we introduced five years ago, and which is still a sensation among new flowers. 3c. each; 3 for 50c.

SPECIAL OFFER.
One each of these two grand plants for 25c.; 3 of each for 60c.; 12 of each for $1.00.

Aster, Alpina.

One of the most charming hardy perennial plants we have ever seen. Its flowers are borne in profusion early in spring, and are the size of a large wild Daisy, about 3 inches across, composed of a double row of intensely blue petals, surrounding a golden yellow center. It is double the size of any other hardy Aster, and closely resembles a large Paris Daisy in shape and general appearance. Price, 3c. each; 4 for $1.00.
BEAUTIFUL HARDY FLOWERING VINES.

Honeysuckles.
The dear old Honeysuckle is never out of place, at the rich man's mansion or the poor man's cottage. For a cheap, hardy, robust yet lovely vine, it is the choicest. A
Fuchsia Flowered—Large clusters of long, trumpet-shaped flowers that drop like a Fuchsia, brilliant coral red.
Golden Leaved—Marvelously effective. It bears innumerable sprays of the most perfect little leaves that are covered with a net work of gold and green, often marked with pink also. The gold deepens at the tips of the sprays and there is nothing finer to combine with coral or bouquets, while for trimming floral baskets they are the finest things we know of. Blossoms pure white.

Helenium—The best white monthly Honeysuckle, with dark green foliage, which keeps fresh and green nearly all winter, and beautiful clusters of the sweetest-scented flowers that open a snowy white and turn a pale yellow.

These flowers are produced in profusion from early spring to late fall. A fine vine for a trellis, or veranda. 15c. each; the 3 for 45c; $1.50 per doz.

Wisteria.
A favorite vine that will grow twenty-five feet in a single season. Just the thing for a second-story verandas, or as a tree climber, or to train against a brick wall. Early spring is covered with great massive clusters of lovely pea-shaped flowers.

Alba—A mass of white flowers in spring, the clusters of bloom reaching two feet in length. 25c. each.

Sironis Magnifica—Fine large clusters of lovely blue flowers, produced in great masses. 30c. each.

Ampelopsis Veitchii.
The fashionable wall climber of the day. Clings tightly by suckers thrown out along the stem to brick, etc., and is a wall of living green the summer through, turning in autumn to a flaming crimson, when it is fairly gorgeous. Nothing else can take its place. 15c. each; 5 for 50c.; 12 for $1.00.

Clematis.
The finest vine in existence for small trellises, or piazza pillars. Used also to cover rock work, mound, stumps, etc., or can be used as a low trailer, pegging its shoots down to the ground. Foliage neat, habit graceful, and for a month a solid sheet of bloom, the large starry flowers actually hiding the foliage. The flowers are from 4 to 9 inches across, extremely showy. All of these are perfectly hardy, and are the finest varieties.

Ramona—a strong, rampant grower, fully three times as strong as Jackmannii, often growing ten feet the first season. It is a perpetual bloomer, flowers appearing both in the old and the new wood, giving an abundance of blossom all through the season. In color a very deep sky-blue, lovely and distinct from any other. In size the flowers surpass anything we have ever seen. Perfectly hardy and very vigorous, new and grand. 80c.

Henry—This is the finest of all white Clematis, and should find a place in every collection. It is not only a vigorous grower, but a remarkably fine and continuous bloomer, beginning with the earliest and holding on with the latest. Flowers large of a beautiful creamy white. 75c.

Jackmannii—This is perhaps the best known of the fine perpetual Clematis, and should have credit for the great popularity now attending this family of beautiful climbers. The plant is free in its form of growth, and an abundant and successful bloomer, producing flowers until frozen up. The flowers are large, and of an intense violet-carmine, remarkable for its velvety richness. 90c.

Paniculata—We cannot say too much in praise of this vine. A clean, thrifty, robust growing vine, of graceful habit, with attractive glossy foliage, and covered in August and September with a sheet of clustered snow-white bloom of the most delicious fragrance. No other vine so completely covers itself with flowers. An arbor or portico over which this Clematis is trained is a wall of white for the time being, and what makes it the more striking is that nearly all other vines have ceased blooming at that time. The panicles of bloom are very pretty for cutting, the pretty star-like florets, with their feather-stemmed appearance giving advantage contrasted with the large and more vivid flowers of the early autumn garden. Perfectly hardy; grows rapidly. Fine vines 15c. each; 10 for 75c. 5 for $1.00.

Crispa—Something like Coccinea, but more broadly bell-shaped, and their color a fine blue, tipped with white. Very neat foliage. 20c. each; 3 for 50c.

One each of the above 5 fine Clematis, $2.00.
Hydrangea Paniculata—Generally considered the most valuable and ornamental shrub in existence. Bushy and robust, every branch tipped in midsummer with an immense cluster of flat, showy white flowers of gigantic size. The trusses of bloom are ten to twelve inches long and nearly as thick through, and last for two or three months, turning pinkish towards the last. No other shrub makes such a show on the lawn or is so universally admired. Grand for cemetery use, and always blooms finel the first summer.

Hydrangea Impeereicr Eugenia—A fine hardy sort, producing great flat cymes of sky-blue, among which are scattered great star-shaped, white or pink blooms. Exceedingly showy and a rival of the famous Paniculata.

Jasmine, Nudiflorum—The first of all shrubs to bloom, the fragrant yellow flowers wreathing the naked branches the first warm days in spring. It often blooms in February or March, while there is yet snow upon the ground.

Jasminn, Officinalis—A low trailing or weeping shrub, which produces all summer long large quantities of starlike, wax white blossoms, of the most powerful and delicious Jasmine fragrance. Unsuitable for cutting, button-hole bouquets, etc.

Sweet Pea Shrub—The shrub of shrubs for bouquet makers. When in bloom it is really but a big bouquet itself, so full is it of dainty sprays of large, lovely rose-pink blooms, to which the graceful plume foliage is an admirable background. Very hardy and robust, and comes to bloom when but a foot high. Its glorious flowers are borne in clusters and are the size and shape of the most lovely Sweet Peas, but their color is more beautiful. The amount of bloom which one of these little shrubs will carry is astonishing and the sight presented is one of remarkable beauty.

Syringa, Double—A double-flowered form of the lovely old fragrant Syringa. Blossoms snow-white, double like roses, very fragrant and borne in profusion.

Clematis, Davidiana—(BUSH CLEMATIS) This is a lovely species of Clematis, growing in bush form, three or four feet high, and yielding through the summer great panicles of lovely blue flowers, which are exceedingly handsome and very fragrant. The foliage is large and luxuriant, and the plant is, all in all, one of exceptional beauty. It is perfectly hardy in any locality and blooms profusely when only a foot high. This lovely Bush Clematis will be a rare attraction in any garden or border.

Exochorda, Grandiflora—A new Japanese shrub of great beauty. Blooms early in spring, and is a complete mass of snowy white bloom. One of the very finest for cutting and for vases.

**Hardy Ornamental Flowering Shrubs.**

Nothing can take the place of Shrubbery for the lawn, for hedges and specimen clumps. Shrubs thrive in any situation, are beautiful all summer, producing some of the choicest of out-door blossoms. The list here offered is a select one, including only the very finest and most desirable sorts.

**Althea**—A fine tall-growing shrub, that once planted is good for a lifetime. Blooms when but a slip of a plant, but eventually reaches the size of a small tree. Always a symmetrical, upright grower, well clothed with a dark green foliage, and bears every year, without fail, a profusion of large, showy double flowers that closely resemble Hollyhocks in shape and color, but often larger in size. They bloom from midsummer until frost, at a time when few other shrubs are in bloom. Finest for cemetery planting or for grouping upon the lawn. In Europe this is the most popular of all flowering shrubs.

**Calycanthus Floridus**—The "Sweet Shrub" is a favorite in gardens. The purplish flowers have an exquisite pineapple fragrance of which one never tires, and a spray of them will perfume a whole room. Cannot be omitted from any lawn or garden.

**Fern Leaf Tree**—A beautiful tree of low, shrubby growth, making a superb large foliage shrub. Its leaves are like beautiful fern fronds, so finely laciniated and graceful, often two feet in length by ten inches in width. Color very dark green, while the stems are dark, chesty red. It also bears large bunches of red berries, and in autumn the leaves color very brightly at the touch of frost. It is one of the very finest shrubs in cultivation. As a specimen shrub or small tree for the lawn it is grand.

**Spiraea, Anthony Waterer**—A perpetual bloomer, and suitable either for garden or pots. It is of a dwarf habit, flowering profusely when only a few inches in height, and at all times and seasons. The flowers are of a lovely pink color, borne in dense clusters, and have a peculiar feathery appearance which is extremely beautiful.

**Spiraea, Bumalda**—This new Spiraea blooms from early summer until frost, and is not only very handsome in the flower garden, but is quite indispensable for cutting, furnishing the fine, feathery, daisy spikes so necessary to bring out the full beauty of a bouquet. Very easy to grow and entirely hardy, and so dwarf and compact it can be grown where larger shrubs would be out of place. A cloud of lovely rose-pink flowers for months.

**Deutzia Crandis**—Grows only two feet high, but is weighted to the ground with its load of white Lily-of-the-Valley-like blossoms. Fine for forcing in winter.

**Daphne Canorum**—A hardy shrub which trails over the ground in a most beautiful manner. Exotic fine for any position, and being evergreen it is the most desirable plant we know for cemeteries. The plant is composed of spiral branches of dense evergreen leaves. The flowers are a lovely pink color, in clusters, and are borne profusely in early spring, and more or less during the entire summer and fall. The delicate beauty of the blossoms is great, but their fragrance is marvelous. Hardly a flower known possesses such a powerful fragrance.

**PRICE**—Any of the above Shrubs, 5c. each; 5 for 50c.; 7 for $1.00; the 15 for $2.90; or $1.50 per dozen.
**CHOICE AND RARE FRUITS.**

For complete list of our New and Rare Fruits see our last Spring Catalogue, pages 141 to 156. If you have not this Catalogue, it will be sent free on application.

**Choice Strawberries.**

Of all the fruits known to cultivation, the Strawberry is conceded to be the most luscious, and is a universal favorite; yet it is not grown by one-half the people who might grow it just as well as not. It is but a few hours' work to plant a Strawberry bed, and care for it during the year, and no work can possibly yield a better return. Strawberries bought in the market are not to be compared with the luscious, ruby beauties, fresh and ripe, from the vines. The following are the very best varieties in cultivation—the cream of all—including extra early and late sorts.

**Great Washington**—The real giant among big Strawberries. This important new sort originated in the State of Washington. Samples which we received in February were potted, and bore fine fruit in April. Several hundred plants planted out in April fruit'd fairly well, though no fruit was expected the first season. The berry is not only the very largest and handsomest in cultivation, but by all odds the best flavored. It is also a great cropper; and vines are extremely healthy and vigorous. None possess it by any other very large sort. What more need be said? It is certainly the grandest Strawberry ever introduced. 6 plants for $1.50; 12 for $3.00; 24 for $5.00; 100 for $16.00.

**Minoa,—For a general all-around Strawberry, we believe this to be the finest variety in cultivation.** It originated on Long Island and has been cultivated here for ten or a dozen years by a few growers, and was first introduced into general cultivation by us last year. The fruit is of very large size and exceedingly sweet and luscious in quality, in this respect surpassing any other variety. It is a most vigorous grower, its foliage being of great size and wonderfully healthy and luxuriant. The fruit is borne on tall stems, which hold them well up from the sand and dirt below. The berries are perfect in shape, beautiful in color, enormous in size and exceedingly prolific, succeeding well on all soils. Either as a market, home or exhibition berry it is par excellence. Could we grow but one variety this would be our choice. Fine plants, 60c. per dozen; $2.00 per 100; $15.00 per 1,000.

**Ocean City**—A new berry of wonderful value. Its great points of value are, enormous size, surpassing almost any other known sort, and enormously productive. Unlike all large berries, which are usually shy bearers, this one is very prolific. In beauty it has no equal, and always brings a large price in market than any other. It is a finely and vigorously grower, supposed to be a cross between Wilson and Sharpless. From what we know of it we believe it to a variety of pronounced value. Fine plants, 60c. per dozen; $2.00 per 100; $15.00 per 1,000.

**Gr. 't. Doube Cropper.—A new sort, which was originated in New Jersey by Mr. Crims. The introducer says of it, 'In the spring of 1890 I planted 2½ acres of the Double Cropper and in June, 1891, gathered and marketed several hundred bushels of fruit, and in the following September I gathered and marketed in New York over 100 bushels more of fine large berries, which sold for prices ranging from 50c. to 75c. per quart.' This statement being verified, is sufficient to make the Double Cropper at once an acknowledged acquisition. With us it is a most healthy and vigorous grower, with fine dark green foliage. Our plants are from the originator, and are therefore genuine. 60c. per dozen; $2.00 per 100; $15.00 per 1,000.

**SPECIAL OFFER.**

Six plants each of above 4 fine Strawberries for $1.00. 12 plants each for $1.50, or 100 plants each for $5.00.
Great Japanese Wineberry.

This magnificent fruit, which was introduced by us several years ago, is now acknowledged to be one of the most valuable fruit novelties ever introduced.

Growth and Hardiness—It belongs to the Raspberry family, is a strong, vigorous grower, attaining the height of 4 to 5 feet, and is perfectly hardy in all positions without protection. It is, in fact, more hardy and vigorous than any Raspberry or Blackberry. It stands alike the cold of northern winters and the heat of summer without the slightest degree of injury. Its leaves are of the darkest green outside and silvery white underneath. The young shoots and branches are covered with reddish brown hairs which makes the plant old and handsome.

Fruit—The fruit is borne in large clusters, often 75 to 100 berries in a bunch. These berries are from the time of formation and bloom until they ripen, enclosed in a “bur,” which is formed by the calyx covering them entirely. When ripe the “bur” opens, exhibiting a large berry of the brightest light glossy scarlet or sherry wine color. The “burrs” and stems are covered with a heavy, reddish moss, like a Moss Rose bud, giving the plant a unique and beautiful appearance. The flavor of the fruit is entirely different from any other berry, being very sprightly, sweet and juicy, having no disagreeable sour, but a delicate and luscious flavor peculiar to itself and superior to other berries. It is absolutely free from all insect ravages.

For Canning and Preserving—The Wineberry is greatly superior to any other fruit. It is the only fruit which will retain its fresh, slightly flavor after being cooked, and for cooking it is in any form there is nothing which can compare with it. It also makes the most delicious jelly.

Time of Ripening and Productiveness—The fruit commences to ripen early in July, and continues in bearing for a long season. It is the most productive berry known, the bushes being ordinarily covered with its large clusters of luscious fruit, which are very easily gathered. Owing to their novelty, superb flavor and great beauty they sell more readily and at far better prices than any other berry.

Price—First-class vigorous plants for fruiting first year, by mail, postpaid, 15c., each; 3 for 39c.; 15 for $1.00. Two-year-old plants, 10c., each; 4 for 56c.; 12 for $2.00.

Seed—Fresh seed, per pkt., 10c.; 6 pkts. for 30c.

The Balloon Berry.

Another wonderful new fruit from Japan, offered last year for the first time. The plant grows 10 to 15 feet high, and, like the Wineberry, the canes are covered with silky red hairs. Fruit ripens all summer, and is very large, shaped somewhat like a Strawberry, or more like a balloon, from which its name is derived. Color of fruit, clear yellow, tinged red; as large and as handsome as the Tree Strawberry. Fruit is very agreeable to the taste, quite unlike any other fruit, the ruby color of the one and golden yellow of the other, together with the enormous size of both, makes a glorious show. Introduced by Mr. Burckardt, who has grown this berry for several years, and from whom we purchased the entire stock, says of it: “It came to me from my collector in Japan, who found it back in the interior. It is a large-growing, vigorous, hardy plant, somewhat inclined to trail. Grows 10 to 15 feet long, and an inch or more in diameter at the base in good soil. Leaves very handsome, compound, lanceolate. Fruit, which is ripening nearly all summer, is clear yellow, shaded red, ripened so as to resemble a balloon. Cultivation will make it as delicious as it is ornamental. A most unique, highly ornamental and valuable berry, unlike anything else. Fruits finely lean, even up to November. Fine plants, 30c. each; 3 for 85c.; 5 for $1.00. Seed, 10c. per pkt. It grows very quickly and rapidly from seed.

Tree Strawberry.

OR STRAWBERRY-RASPBERRY.

The Largest and Most Beautiful Berry in the World, and the Most Productive and Easily Grown.

This is one of the most unique and at the same time the largest and most beautiful berry of any kind that has yet appeared before the public. It comes to us from Japan and is of the Raspberry family, though in many respects it resembles a Strawberry, growing on a bush two feet high. The plant is entirely hardy in any location, and a most prolific yielder, ripening an enormous crop of fruit in July and August, and more or less the time up to November. In quality the fruit is called good, though not so finely flavored as either the Strawberry or Raspberry, but quite as good as most Blackberries. It is very fine when cooked, and makes a jelly which has a unique flavor, and is superior to the jelly of any other fruit. In habit of growth the plant is distinct from both the fruits named. The root is perennial, throwing up numerous strong, branching shoots, which are covered with its large, beautiful berries the whole summer, from early in July until freezing weather, rendering it a perennial heater. The canes or shoots die to the earth in winter, new ones being thrown up the following spring, which begin blooming and setting fruit at once. The foliage is light green in color, bright, clean, cheerful and pleasing, and exempt from attacks of all insects and diseases. It berries are globular, rich, glossy, ruby-red color, sweet and melting and all of such transparent beauty as to cause everyone to shout with admiration upon first seeing a plant in bearing. Strong plants, 15c. each; 3 for 39c.; 12 for $1.00; 30 for $2.00. Seed, 10c. per pkt.
New Climbing Raspberry, Golden Climber.
A MOST UNIQUE AND VALUABLE NOVELTY.

A climbing Raspberry is a novelty of more than ordinary importance, and one that is sure to delight all who appreciate the unique and valuable in horticulture. This berry has grown and fruited with us for two years, and we can offer it with our strongest recommendation. Planted in a good, rich soil, near a building or trellis, it will grow 10 to 15 feet in a season, and the strong, vigorous branches may be fastened up to a trellis or building as one would secure a grape vine. Its fruit ripens very early (one of the very first of all Raspberries), and is produced in very large clusters, of good size and fine quality, and deep golden yellow in color. Foliage large, vigorous and healthy, and it is a berry of the most thorough bronzed hardness. It being such a rank grower and producing such an enormous amount of wood, makes it immensely productive. It will probably yield twice as much fruit as any other sort. It is ornamental as well as useful, and, taken all in all, our customers will find it exceedingly valuable, and, capable of being put to many good uses. Fine, strong plants, 25c. each; 5 for $1.00; 10 for $1.60.

Best Standard Raspberries.

Cuthbert - A very large red variety, of superb quality. It is an enormous yielder, and grows freely in any situation. It will adapt itself to any wild or out of the way place and make a splendid wild berry, if one has not time to give it culture.

Golden Queen - This is a sport from the Cuthbert, and is exactly like that excellent berry in all respects, except that its color, when ripe, is a fine, rich golden yellow. It is of high quality.

Kansas - The king of all Black Cap berries. Medium early, large size, great productivity, excellent quality and perfect hardiness, make it superior to any other variety.

Columbian - A Raspberry of gigantic size, the canes growing to the height of 10 to 16 feet, strong and woody. Very hardy and vigorous. Fruit large, dark red, with small seeds. A Cop variety never sucked and is increased by tips.

Souchet Everbearing White - An extra large berry of a beautiful light amber, almost pure white color. Perfectly hardy, vigorous and a great cropper, both summer and fall. The fruit is of extra fine quality. In fact, we think it the finest flavored of all Raspberries, therefore most desirable for the home garden. Its beautiful color, contrasting with red and black varieties

In many respects this is the very finest Raspberry in cultivation.

75c. per dozen; $1.50 per 100; 5 each of the 5 sorts for $1.00.
New Blackberry Rathbun.

Surpassing any other variety. Two common quart boxes, one of the Rathbun and one of the Snyder variety, were picked and counted. The basket of Rathbun was filled by 45 berries, while it required 184 berries of the Snyder to fill the quart. One of the Rathbun berries was, at the same time, measured and found to be 1½ inches long and 1½ inches in diameter. A large proportion of the berries will measure from 1½ to 2½ inches in length, and the whole crop is very uniform.

The fruit of the Rathbun, unlike most Blackberries, has no hard core, in fact, no core is perceived in eating it. All is soft, sweet and luscious, with a high flavor. It is superior to all the well known varieties in cultivation in this quality. On this point it may be said that there is nothing more to be desired, and it is not probable that there will ever be a variety to surpass it in this particular.

The Rathbun was severely tested for hardness during the winter of 1895-96, when for several days the temperature was 30 degrees below zero but did not kill the vines.

The plant is a strong, erect grower, and, unlike most varieties, it produces but few suckers. It sends up a strong main stem which branches freely. These branches curve over and bend downward till the tips touch the ground. Then late in the season they send out roots from the tips of the branches and thus propagate themselves in the manner of a Black Cap Raspberry. 25c. each; 7 for $1.00; 15 for $2.50.

New White Blackberry, “Iceberg.”

This marvelous novelty was produced by Luther Burbank, who describes it as follows: “Owing to its satisfactory qualities of White Blackberries so far known, the impression may have been entertained by some that no White Blackberry could be as productive and hardy, with berries as early, abundant, large, handsome and delicious as the best black ones.

“The well-known Lawton is, when ripened, unsurpassed and very generally known as the most productive market berry. Owing to its fineness of race, it will reproduce itself from seed almost exactly, and its seedlings will not be influenced, when raised from seed polliinated by other varieties, but it readily imparts its good qualities when employed as the staminate parent. One of the great-grand-parents of ‘Iceberg’ was Lawton. The first generation of seedlings, when crossed with Crystal White, were all black; the second also, though varying much in other respects; but the third produced this wonderful plant, bearing the snowiest white berries ever seen. It bears loads of delicious, snowy berries, which are not only white, but so transparent that the seeds, which are unusually small, may be seen in the ripe berries.

“Clusters larger than those of Lawton; berries at least as large, earlier, sweeter, and more tender and melting throughout, though as firm as Lawton when ripe.” No garden should be without this grand White Blackberry. Strong plants, 25c. each; 3 for 50c.; 7 for $1.00; 15 for $2.50.
New Giant Currants.

These two Currants are novelties of great importance. When you consider the enormous size and beauty of the fruit, great productiveness, hardiness and vigor of the bushes (outyielding other varieties almost two to one), we may be pardoned if we feel a little pride at being the introducer of them. Empire is deep ruby-red; Purity, pure white—the two contrasting magnificently when seen together. In size the fruit is often 2½ inches in circumference, and borne in clusters four inches long, while bushes two years from the cuttings yield six to ten quarts each. The fruit being so very large and excellent, sells readily at almost double the price realized for other sorts. It seems hardly necessary to say anything more about them. Their great value will be apparent. Another valuable point about these new Currants is their lateness in ripening. They ripen somewhat later than other varieties, therefore escaping the great glut and low prices which Currants in the height of the fruiting season. Empire and Purity, coming in later and being so much finer in size and appearance, virtually have the field to themselves.

Empire—New giant red. Purity—New giant white.

PRICE—30c. each; $1.50 per dozen. One each of the 3 sorts for 50c; 3 each for $1.55; 12 each for $4.00.

Childs' Giant Ruby—One of the finest of all Currants. It is of remarkable strong growth, and in the size and quality of the fruit it is really a marvel. The berries are very large, borne in enormous clusters of twenty to thirty, yet leaving room near the wood to make picking easily done without bruising or crushing the berries. In color they are the most beautiful ruby-scarlet, sparkling and glossy, and, being so large in size, they catch every eye, and sell more readily and for much better prices than any other variety. It is now being largely planted where Fay's and other sorts have been pulled out, for it is a greater and surer bearer than any other. In this locality it easily produces three or four times as much fruit as Fay's or Cherry, and the fruit is certainly much finer in every respect. Mr. N. Hallock says: "I have grown the Giant Ruby Currant for four years. Bushes three years set yielded the past season five pounds of fine fruit, where Fay's Prolific, in the same lot, has been an entire failure. Of the seven or eight kinds I grow, Giant Ruby yields double the quantity of fruit of any of them."

Empire—New giant red. Purity—New giant white.
New Peaches.

There is no tree which makes a more rapid growth and comes into bearing sooner after planting than the Peach. Trees small enough to go by mail will bear in three years, and their cost is so little that every home in our land should be abundantly supplied with this most valuable fruit.

Everbearing—This is one of the most remarkable of Peaches, as it combines many desirable qualities which make it of great value for family use. The first ripening begins in July and successive crops are produced until the beginning of November. Fruit in all stages of development—ripe and half grown—may be seen upon the tree at the same time. Two-year-old trees bear freely. As the tree blossoms during a long period, a complete failure of fruit can never happen. The fruit is creamy white, nectarified and striped with light purple and with pink veins near the skin; very juicy, vinous, and quality very best. Freestone of the Indian type. No praise can do justice to this magnificent novelty. It is really one of the finest things we ever offered. Good size, prolific, best quality, and bears continually for three months. What more can be desired? 30c. each; 3 for 75c.; 10 for $1.50.

Holderbaum—This Champion of all Peaches originated in 1880, in Somerset, Pennsylvania. The size of the matured fruit is immense, many specimens measuring from 12 to 14 inches in circumference. In color it is of a light cream-yellow, with a beautiful red check on the sunny side. In texture it is very firm, of fine quality, and a perfect freestone. The pit is very small and the flesh light yellow, streaked with red from the surface to the center, and of most exquisite flavor. It ripens about August 15, thus making it one of the earliest of all freestone varieties. For hardness, vigorous growth and long life, it is certainly the Champion of all Peaches. 25c. each; 5 for $1.00.

Champion—Fruit very large, often 10 inches in circumference. Flavor most delicious, juicy, sweet and rich, surpassing most other varieties. Color, a beautiful creamy white, with a bright red check, most strikingly handsome in appearance. Its season of ripening is very early. 20c. each; 3 for 50c.

Excelsior—The tree is a dwarf of low-spreadiug, willow-like habit of growth, and the fruit buds are so hardy that it produces a full annual crop when all others fail. Fruit medium to large, rich orange-yellow, splashed with carmine on the sunny side, flesh yellow, juicy, very sweet, tender and rich. 30c. each; 2 for $1.00 per doz.

SPECIAL OFFER—One each of these 5 grand new Peaches for $1.00.
Grapes.

Everyone who has a bare fence, wall or outbuilding, or a few feet of vacant ground, can plant a few Grape vines and reap an annual harvest of luscious fruit. Owners of country places, or even of city lots, need never be without an abundant supply of Grapes in season. There is no fruit that yields a more prompt or generous return. Everybody can grow it, and everybody should have it in abundance. The following sorts are the very cream of the hundreds of varieties which are before the public; they are mostly varieties of recent introduction and of improved quality:

Early Black—This is the earliest of all Grapes; originated at Ewdbld, Ohio, in 1834, being a chance seedling of the Concord. It bears one cluster in every 3 feet, and ripens about the 15th of August, and is very early in October. It is very rich and sweet, is the admiration of all Gape lovers.

Moore's Early—It is probably the finest of all black Grapes. The vine is hardy and healthy in growth, vigorous, and perfectly free from mildew. Berries large, of a beautiful light straw color—almost white—and of most delicious quality, containing few seeds and a pulp which melts in one's mouth like snow.

Moyer—An extra early Grapes, about the size and color of an old Delaware, but with a larger bunch. It is, perhaps, sweeter and more delicious than any other Grapes grown; in this respect being superior to the Delaware.

Niagara—No Grapes has been so largely advertised as this vine, and none so extensively planted during the first few years, and, we may say, none has proved more profitable. It is the leading white Grapes of the day. Berries very large, borne in large bunches. Flavor sweet and delicate, being borne in varieties which can equal it. It is exceedingly productive, and as hardy and robust in any locality as the Concord.

Zofen Pockington—A very sweet and delicious Grapes of a beautiful amber color. Hardy, vigorous and productive. A magnificent sort. 3c. each; or 4 for $1.00.

The Childs Quince.

This is a most remarkable new sort, as it is such an improvement over all varieties of Quince. The fruit grows to an enormous size, larger than the largest Apples. In shape it is nearly round, resembling an Apple very much, with smooth skin. It is of very mild, pleasant flavor, so much so that when ripened almost out from the hand, as we would eat a good Apple. For cooking it is superlative. Its flesh is so tender that it will bake or stew as readily as an Apple, and it can be used in all manner of ways. It is a large, rank, thriving grower with heavy foliage, and bears enormously, beginning when they stand in the nursery rows and only a few feet in height. Originated by Luther Burbank. Price, 4c. each.

Grandy Tree Currant.

A strong and rapid grower, attaining a height of seven feet and branching freely into a fine symmetrical tree form; single shoots often grow four to five feet in one season. It bears every year a tremendous crop of large black fruit nearly the size of a grape, the quality of which is entirely unlike any other black sort. 3c. each; or 3 for 5c.

Bismark—This new Dwarf Apple is indeed a wonder. Little trees a foot or so in height will bear a few apples of enormous size, either growing in pots or in the ground. A little tree 15 inches high, which we imported from France last winter bore a fine large apple the following summer. Fruit very large, of brilliant color, and borne freely on trees two years old. A most unique plant and a fine little tree for the garden, the great apples on such very small trees attracting great attention.

Lorain Sweet—An apple of great size and superb quality. It ripens in early fall and is the most delicious Sweet Apple grown, flesh being exceedingly tender and melting and of the most luscious flavor, reminding one of the sweetness of honey. Should be in every orchard.

Wonderful New Apples.

Of these remarkable new Apples only one-year old trees can be supplied. They are grand.

Monstrous de Nikita—Gigantic size and good quality. Largest known.

Nidwetzkina—Wood, branches, blossoms and fruit of a dark red color.

Rambour de Winntz—Very large, weighing two pounds; yellow, sometimes striped crimson; firm, juicy, vinous; late keeper.

Price, 30c. each; or 3 for 50c.
NEW WINTER-BLOOMING SWEET PEA.

A new, extra early flowering Sweet Pea of the Blanche Ferry type, that succeeds freely in pots for window or conservatory during winter, is a most important novelty. It is of rather short growth, making much less vine than ordinary varieties. It blooms very early and is a perfect success as a pot plant. The blossoms are freely produced and are of a delicate and charming pink and white tinted color and deliciously fragrant. We believe it will prove a success with all who try it and, like the Winter-Blooming Morning Glory (page 34), give immense satisfaction. Per pkt., 15c.

OUR CATALOGUE FOR 1901.

It Will Be a Great Book, Containing More Good Things Than We Ever Offered Before.

The beginning of a new century in 1901 is the beginning of a new quarter century in the history of our business, and we propose that the Catalogue of Seeds Bulbs, Plants and Rare New Fruits, which we are preparing to issue next January, shall be worthy of the event. It will surpass the magnificent Anniversary Catalogue which we issued this year. The list of articles offered will be the most valuable, novel and interesting ever presented together. It will make a large book, elegantly illustrated and with numerous colored plates, devoted to SEEDS, both flower and vegetable, all the best novelties and standard varieties; also BULBS and PLANTS, such as Summer-flowering Bulbs, Hardy Bulbs, Hardy Perennials, Window and Bedding Plants, Roses, Ornamental Shrubs, etc., and rare new Fruits of various kinds. It will have some new features, and some Special Offers of importance.

This great Catalogue will be sent free to all who apply. Customers will receive it without applying.

Address all orders, etc.,

JOHN LEWIS CHILDS, Floral Park, N. Y.
Gossamer Rubber Mittens for Garden Work.

After once using these mittens, one who cares to protect the hands would not be without them. The disagreeable part of gardening, in the estimation of many, is overcome by them. The hands are kept in contact with the dirt and protected from the sun. For ladies they are invaluable and everybody who works or would like to work among her plants and flowers should have them. 30c. per pair, postpaid.

Paper Flower Pots.

Here we offer Flower Pots made from Nakomor Waterproof Fabrics. They are very light, durable, unbreakable, clean, and of terra-cotta color. Just the pots for growing small plants and seedlings.

Size, 3½ inches, 25c. per dozen; per 100, $1.00.
Size, 3¼ inches, 30c. per dozen; per 100, $1.25.
Size, 3 inches, 35c. per dozen, per 100, $1.75.

By mail, postpaid, at above prices.

Bent Neck Plant Sprinkler.

This is the finest Rubber Sprinkler made, as its neck is so bent that plants can be readily sprinkled, both above and underneath the foliage. It is durable, quickly and conveniently filled, throws a spray, which thoroughly washes the foliage of plants, removing dust and insects. Price, by mail, postpaid, 75c.

ITALIAN INSECT FUMIC.

A New Sure Death to All Plant Pests, Flies, Mosquitoes, Moths and Other Troublesome Insects.

This wonderful new article, which is made for us in Italy, is a piece of punk-like substance which when ignited produces no flame, but a large quantity of smoke. This smoke will kill all flies, mosquitoes, moths, grubs or other insects which may be in the room where the smoke is made. For fumigating plants infested with aphids, mealy-bugs, or other insects it is the best thing known, and the most convenient to use. The smoke is: in no way injurious or offensive to any person. On the other hand, it is a valuable disinfectant, cleansing and purifying a room of all diseases, germs, or other impurities. Berrie one at night to kill mosquitos in your sleeping room, or at any time to rid a room of flies or moths; and, when your plants are to be fumigated, this is the thing to use. It is made in boxes or bricks 5½ inches long. Price, by mail postpaid, per box of one dozen bricks, 30c.; per box of two dozen bricks, 50c.

CHILD'S BUG-SCORCHER.

A NEW INSECTICIDE OF GREAT VALUE.

The Most Convenient to Use, and The Surest And Fastest Killers.

It is with great pleasure that we offer this, the greatest of all compounds for destroying insects of every kind and description. It is a paste, a teaspoonful of which is dissolved in a pint of water. With this water the infested plants are sprayed, washed, syringed or sprinkled. It kills every insect with which it comes in contact, on the spot; also, their eggs and larvae. Those which escape its touch die afterwards, by feeding upon the plant which has been syringed. Though it is destructive to all insect life, it is non-poisonous and harmless to vegetation when diluted as directed. It dissolves quickly and readily in cold water. It is a great discovery and is absolutely sure death to every form of insect life at touch. Price, in seven-ounce cans, postpaid, 40c.; 3 cans, $1.00.

Potting Soil.

Many people, especially those residing in cities, find it difficult to get good potting soil, and we have been urged to prepare a good mixture for general use. This we have done, and here offer a rich, sandy soil loam, mixed with a rather quantity of old, pulverized manure. It is just the soil which suits all sorts of plants and is by far the best. It is finely sifted and will be sent by express or freight at buyer's expense. Price, 50c. per bushel; $1.25 per bbl.

Tilton's Emery Knife Sharpener.

It is a round, emery-covered tool and suitable for sharpening all sorts of knives, especially Christy and other peculiar knives, which cannot be ground or sharpened on stones. A few strokes of a knife on this sharpener is sufficient to give it a keen edge, no matter how dull it may be. For carving knives or for kitchen use it is worth its weight in gold, the best thing in use. By mail, postpaid, 50c. each; 3 for 20c.

CHILD'S EXCELSIOR FERTILIZER.

BEST OF ALL PLANT FOOD.

A NEW ODORLESS FERTILIZER FOR POT PLANTS.

Makes Plants Grow and Bloom Luxuriantly, and Drives Insects from the Soil.

This excellent fertilizer is used by dissolving a teaspoonful of water and applying it to the soil of pot plants every week or two. It starts the plants at once into healthy and vigorous growth and abundant bloom. Prices worms and other troublesome insects from the soil. It has no disagreeable odor, and is the only artificial fertilizer which can be used without danger or injury to the plants. It takes the place of liquid or powder, and is just the thing that has been wanted for a long time. Mr. E. P. Bangford says: "There is nothing so convenient or better in results than the Excelsior Fertilizer, put up by Mr. Childs, especially for pot plants. It produces a vigorous and healthy growth, and plants to which it is given flower very freely.

Price, one-half pound packages, 25c. each, postpaid; or 50c. per pound, by express.
